

# HALFTANKS - HALF BLUING TANK, 20" L X 6" H X 6" W, BLACK IRON

[Gunsmith Tools & Supplies](#) > [Metal Prep & Coloring](#) > [Metal Bluing](#) > [Stainless Steel Tanks](#)

## Much Needed Goodies Make Your Bluing Life Easier

Made just half as long as the regular black iron and stainless steel tanks - to hold half as many bluing salts and take less time to heat up. Ideal for handguns and small parts bluing when you don't need to fire up the "big" tanks.

# Safety Instruction Guide for HALFTANKS HALF BLUING TANK

## Introduction

Thank you for choosing the HALFTANKS HALF BLUING TANK. This product is designed for safe and efficient bluing of handguns and small parts. Proper usage and safety precautions are essential to ensure the safety of all users. This guide provides important safety information, installation instructions, and disposal guidelines in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always read and understand the safety instructions before using the bluing tank.
- Ensure that the tank is used in a wellventilated area to avoid inhalation of fumes.
- Keep the tank out of reach of children and vulnerable individuals.
- Do not use the tank for any purpose other than bluing.
- Regularly inspect the tank for any signs of damage or wear.
- In case of any malfunction or damage, discontinue use immediately and seek assistance.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - The bluing tank can become hot during use. Avoid direct contact with hot surfaces.
  - Bluing salts can be harmful if ingested or if they come into contact with skin. Use gloves and protective eyewear.
  - Ensure that the area around the tank is free of flammable materials.
- **Avoiding Hazards:**
  - Always use the tank on a stable, nonflammable surface.
  - Do not leave the tank unattended while in use.
  - Follow the manufacturer's instructions for the correct amount of bluing salts to use.
  - Ensure that the tank is properly filled with the solution before heating.

## Instructions for Installation and Usage

### 1. Installation:

- Place the bluing tank on a flat, stable surface away from flammable materials.
- Ensure that the area is wellventilated.
- Check that all seams and edges are intact before use.

### 2. Usage:

- Fill the tank with the required amount of solution and bluing salts as per the manufacturer's instructions.
- Connect the heating element (if applicable) and set to the desired temperature.
- Allow the solution to heat up to the appropriate temperature for bluing.
- Carefully submerge the parts to be blued into the solution using appropriate tools (e.g., tongs).
- Monitor the process closely and adjust the temperature as needed.
- Once completed, remove the parts and allow them to cool in a safe location.

## **Disposal Instructions**

- Dispose of any unused or expired bluing salts according to local regulations.
- Ensure that the bluing tank is empty and clean before disposal.
- If the tank is damaged or no longer usable, follow local guidelines for the disposal of metal products.
- Do not dispose of the tank in regular household waste if it contains hazardous materials.

## **Contact Information for Further Support**

For further assistance or inquiries about the HALFTANKS HALF BLUING TANK, please reach out to the designated EU contact point provided on the product packaging or manufacturer's website.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with the HALFTANKS HALF BLUING TANK. Always prioritize safety and do not hesitate to seek help if you have any questions or concerns. Thank you for your attention to these important guidelines.
