

# HALFTANKS - BROWNELLS HALF BLUING TANK, 20" L X 6" H X 6" W, STAINLESS STEEL

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Metal Bluing](#) > [Stainless Steel Tanks](#)

## Much Needed Goodies Make Your Bluing Life Easier

Made just half as long as the regular black iron and stainless steel tanks - to hold half as many bluing salts and take less time to heat up. Ideal for handguns and small parts bluing when you don't need to fire up the "big" tanks.

# Safety Instruction Guide for HALFTANKS BROWNELLS HALF BLUING TANK

## Introduction

Thank you for choosing the HALFTANKS BROWNELLS HALF BLUING TANK. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this manual carefully before use to understand the safety precautions and operational guidelines.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this manual.
- Always handle the tank with care to prevent physical injuries.
- Keep the tank out of reach of children and vulnerable individuals to avoid accidents.
- Regularly inspect the tank for any signs of damage or wear before use.
- If any part of the tank is damaged, do not use it and contact a qualified professional for repair or replacement.
- Familiarize yourself with the safety features and emergency procedures related to the use of this product.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as gloves and safety goggles when handling bluing salts and the tank.
- Ensure the work area is wellventilated to prevent the accumulation of harmful fumes.
- Avoid direct contact with bluing salts and solution; in case of contact, wash with plenty of water and seek medical attention if necessary.
- Do not overfill the tank; adhere to the 2gallon maximum capacity to prevent spills and overflow.
- Ensure that the tank is placed on a stable, flat surface to prevent tipping or accidental spills.
- Do not use the tank for any purpose other than bluing small parts and handguns.

## Instructions for Installation and Usage

### 1. Setting Up the Tank

- Place the tank on a stable, flat surface away from flammable materials.
- Ensure that the area is wellventilated.
- Check that the tank is clean and free of any debris before use.

### 2. Filling the Tank

- Carefully pour the bluing salts solution into the tank, ensuring not to exceed the 2gallon capacity.
- Use a funnel if necessary to avoid spills.

### 3. Heating the Solution

- Connect the heating element according to the manufacturer's instructions.
- Monitor the temperature closely to avoid overheating.
- Always turn off the heating element when not in use.

### 4. Using the Tank for Bluing

- Immerse the small parts or handguns into the heated solution carefully.
- Use tongs or other tools to avoid direct contact with the solution.

- Follow the recommended immersion times for optimal results.

## **5. After Use**

- Turn off the heating element and allow the tank to cool down.
- Dispose of any unused solution according to local regulations.
- Clean the tank thoroughly after each use to prevent contamination.

## **Disposal Instructions**

- Dispose of any leftover bluing salts and solutions in accordance with local hazardous waste disposal regulations.
- Do not pour chemicals down the drain or in regular trash.
- Ensure that the tank is emptied and cleaned before disposal if it is no longer needed.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the HALFTANKS BROWNELLS HALF BLUING TANK, please contact the appropriate customer service or support channels provided by the manufacturer.

By following these safety instructions, you can ensure a safe and effective experience with your HALFTANKS BROWNELLS HALF BLUING TANK. Thank you for your attention to safety!
