

STAINLESS STEEL TANK - FULL BLUING TANK, 40" L X 6" H X 6" W, STAINLESS STEEL

[Gunsmith Tools & Supplies](#) > [Metal Prep & Coloring](#) > [Metal Bluing](#) > [Stainless Steel Tanks](#)

Perfect For Parkerizing Hot Cleaning & Rinse Tanks

Ideal for cleaning solutions, boiling water, cold or hot rinse tanks, oil tanks& but DON'T USE IT FOR BLUING SALTS!! Bluing Salts in the presence of stainless steel and gun steel frequently can create "galvanic" action (electric current flow) between the two dissimilar metals resulting in a "false plate" of either chemicals (streaking the bluing with random iridescent blues/greens/purples) or stainless steel (giving patches of random silver specks/spots). So - use for all other tanks to prevent rusting and mess; but keep your bluing salts contented and bluing right in our Black Iron Bluing Tanks!!

Attributes

- Name: [FULL BLUING TANK, 40" L X 6" H X 6" W, STAINLESS STEEL](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 082004664

Safety Instruction Guide for Stainless Steel Tank Full Bluing Tank

Introduction

Thank you for choosing the Stainless Steel Tank Full Bluing Tank. This guide provides essential safety instructions and usage recommendations to ensure safe and effective use of the product. Please read this document carefully before use.

General Safety Guidelines

- Ensure that the tank is used only for its intended purpose, which is for cleaning solutions, boiling water, cold or hot rinse tanks, and oil tanks.
- Do not use the tank for bluing salts, as this can cause galvanic action leading to unsafe conditions and product damage.
- Always handle the tank with care to prevent injuries or accidents.
- Keep the tank out of reach of children and vulnerable individuals to avoid accidents.

Specific Safety Precautions for Use

- Before use, inspect the tank for any signs of damage or wear. Do not use if damaged.
- Ensure that the tank is placed on a stable, flat surface to prevent tipping or spilling.
- When using boiling water or hot solutions, take precautions to avoid burns. Use appropriate protective gear such as gloves and goggles.
- Do not mix different cleaning solutions in the tank, as this may create hazardous reactions.
- If any solution spills, clean it up immediately to prevent slipping hazards.
- Always follow the manufacturer's instructions for any cleaning solutions used in the tank.

Instructions for Installation and Usage

1. Unpacking the Tank

- Carefully remove the tank from its packaging.
- Inspect the tank for any damage during shipping.

2. Placement

- Place the tank on a stable, flat surface.
- Ensure that the area is wellventilated, especially when using chemicals or hot solutions.

3. Filling the Tank

- Fill the tank with the appropriate solution, ensuring not to exceed its capacity of 4½ gallons.
- Use a funnel if necessary to avoid spills during filling.

4. Using the Tank

- For cleaning solutions, follow the specific instructions for the solution being used.
- For boiling water, ensure that the water is heated in a safe manner and carefully pour it into the tank.
- Monitor the tank during use to ensure it remains stable and safe.

5. After Use

- Empty the tank and clean it thoroughly after each use.
- Store the tank in a dry and safe location when not in use.

Disposal Instructions

- Dispose of any cleaning solutions and residues in accordance with local regulations.
- The tank itself can be recycled as it is made of stainless steel. Check with local recycling facilities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further support regarding the Stainless Steel Tank Full Bluing Tank, please refer to the manufacturer's contact details provided with the product packaging.

Please ensure that you follow these safety instructions to maximize the safe use of your Stainless Steel Tank Full Bluing Tank. Thank you for your attention to these important guidelines.
