

# BUFFING WHEEL RAKE - BROWNELLS BUFFING WHEEL RAKE

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Polishing Tools & Accessories](#) > [Polishing Wheels](#)

## Fast, Efficient Truing Of Felt & Muslin Wheels

Seen in use at a major arms maker, designed specifically for truing felt and muslin wheels. Far easier to use and more effective than the traditional wood rasp; a wheel trued with this rake will literally "suck-up" the polish. No need to hand clip the threads on a stitched wheel before truing, the Rake does that for you. The wood handle gives a solid, two-hand hold and light pressure with just two of the four rows of aggressive, steel teeth makes quick work of wheel imperfections. Simplifies reshaping of wheels for special jobs.

# Safety Instruction Guide for BUFFING WHEEL RAKE

## Introduction

Thank you for choosing the BUFFING WHEEL RAKE from BROWNELLS. This product is designed to enhance the performance of felt and muslin wheels while ensuring safe usage. Please read this safety instruction guide carefully to ensure proper use and to avoid any potential hazards.

## General Safety Guidelines

- Ensure that the BUFFING WHEEL RAKE is used only for its intended purpose.
- Always inspect the tool before use for any signs of damage or wear.
- Keep the tool out of reach of children and vulnerable individuals.
- Use the BUFFING WHEEL RAKE in a wellventilated area to avoid inhalation of dust or debris.
- Always wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, while using the rake.
- Be aware of your surroundings and ensure that others are at a safe distance while you are using the tool.

## Specific Safety Precautions for Use

- Do not use the BUFFING WHEEL RAKE on wheels that are excessively worn or damaged.
- Avoid applying excessive force while using the rake; light pressure is sufficient for effective performance.
- Do not use the rake on wheels that are not securely attached to a machine or workbench.
- Ensure that the area around the buffing wheel is clear of any obstructions or flammable materials.
- If the rake becomes clogged with material, stop using it and clean it according to the maintenance instructions.

## Instructions for Installation and Usage

### 1. Preparation for Use:

- Before using the BUFFING WHEEL RAKE, ensure that the buffing wheel is securely mounted on the machine.
- Check that the machine is turned off and unplugged during setup.

### 2. Using the BUFFING WHEEL RAKE:

- Hold the rake with both hands for better control.
- Position the rake against the buffing wheel at a slight angle.
- Apply light pressure with two of the four rows of teeth to true the wheel.
- Move the rake evenly across the surface of the wheel, ensuring that you cover all areas.
- Periodically check the progress and adjust your technique as necessary.

### 3. PostUse Care:

- After use, clean the rake to remove any debris or material buildup.
- Store the rake in a dry, safe place away from children and pets.

## Disposal Instructions

- Dispose of the BUFFING WHEEL RAKE in accordance with local regulations regarding tool disposal.
- If the rake is damaged beyond repair, consider recycling it if possible.

## **Contact Information for Further Support**

For any questions or concerns regarding the BUFFING WHEEL RAKE, please contact the manufacturer or your point of purchase.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience while using the BUFFING WHEEL RAKE. Your safety is our priority, and we appreciate your commitment to safe tool usage.
