

# BUFFING WHEEL RAKE - BROWNELLS BUFFING WHEEL RAKE REPLACEMENT TEETH

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Polishing Tools & Accessories](#) > [Polishing Wheels](#)

## Fast, Efficient Truing Of Felt & Muslin Wheels

Seen in use at a major arms maker, designed specifically for truing felt and muslin wheels. Far easier to use and more effective than the traditional wood rasp; a wheel trued with this rake will literally "suck-up" the polish. No need to hand clip the threads on a stitched wheel before truing, the Rake does that for you. The wood handle gives a solid, two-hand hold and light pressure with just two of the four rows of aggressive, steel teeth makes quick work of wheel imperfections. Simplifies reshaping of wheels for special jobs.

## Attributes

- Name: [BROWNELLS BUFFING WHEEL RAKE REPLACEMENT TEETH](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 082077002

## **REPLACEMENT BUFFING WHEEL RAKE TEETH**

### **Safety Instruction Guide**

#### **Introduction**

Thank you for choosing the BUFFING WHEEL RAKE by Brownells. This product is designed to enhance the performance of felt and muslin buffering wheels, making them easier to use and more efficient. To ensure your safety and the optimal use of this tool, please read and follow the safety instructions outlined in this guide.

#### **General Safety Guidelines**

- Always use the BUFFING WHEEL RAKE as intended.
- Keep the tool out of reach of children and vulnerable individuals.
- Inspect the rake and buffering wheels before use for any signs of damage or wear.
- Use appropriate personal protective equipment (PPE), including safety goggles and gloves, when operating this tool.
- Follow all local regulations and guidelines regarding the use of tools and equipment.

#### **Specific Safety Precautions for Use**

- Ensure that the buffering wheel is securely mounted before using the rake.
- Do not apply excessive force when using the rake; light pressure is sufficient.
- Avoid using the rake on wheels that are not suitable for buffering applications.
- Be cautious of flying debris and polish during operation; maintain a safe distance from others.
- If the tool becomes damaged or malfunctions, discontinue use and seek assistance.

#### **Instructions for Installation and Usage**

##### **1. Preparation:**

- Before using the BUFFING WHEEL RAKE, ensure that your workspace is clean and free of any obstructions.
- Gather all necessary personal protective equipment (PPE).

##### **2. Using the Rake:**

- Hold the rake firmly by the wooden handle with both hands for stability.
- Position the rake at a comfortable angle against the buffering wheel.
- Apply light pressure using two of the four rows of steel teeth to remove imperfections from the wheel.
- Move the rake smoothly across the surface of the wheel, allowing it to reshape the wheel without excessive force.
- After use, clean the rake and store it in a safe place.

##### **3. Maintenance:**

- Regularly inspect the rake for any signs of wear or damage.
- Clean the rake after each use to ensure optimal performance.

## **Disposal Instructions**

- When the BUFFING WHEEL RAKE is no longer needed, dispose of it in accordance with local waste management regulations.
- Do not dispose of the rake in regular household waste if it is damaged or contains hazardous materials.

## **Contact Information for Further Support**

For safety inquiries or assistance regarding the BUFFING WHEEL RAKE, please reach out to the manufacturer or your local distributor.

Thank you for taking the time to read this safety instruction guide. Your safety is our priority, and we hope you enjoy using the BUFFING WHEEL RAKE by Brownells.
