HALF TANK BLUING SYSTEM SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the HALF TANK BLUING SYSTEM BROWNELLS HALF TANK BLUING SYSTEM BURNER ASSEMBLY. This product is designed to assist in bluing processes with safety and efficiency. Please read this safety instruction guide carefully to ensure safe and proper use of the product.

General Safety Guidelines

- Always read and understand the user manual before using the product.
- Ensure that the product is used in a wellventilated area to avoid the accumulation of harmful gases.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear, damage, or leaks before use.
- Use only the specified orifices (#32 Natural gas orifice: 082032032 and #51 LP orifice: 082032051) for safe operation.
- Follow all local regulations regarding gas appliances and usage.
- In the event of a gas leak, turn off the gas supply and evacuate the area immediately.

Specific Safety Precautions for Use

- Ensure that the burner assembly is properly connected to the gas supply before igniting.
- Do not attempt to repair or modify the burner assembly without professional assistance.
- Always use protective gear, such as gloves and goggles, when operating the system.
- Keep flammable materials away from the burner assembly during operation.
- Never leave the burner assembly unattended while in use.
- In case of fire, do not use water to extinguish; use a fire extinguisher rated for gas fires or call emergency services.

Instructions for Installation and Usage

1. Installation:

- Unpack the burner assembly and check for all components: 2 half tank burners, 2 flat face mixers with 2 valves, regulator with quick disconnect, braided gas hose T assembly, and mounting hardware.
- Follow the manufacturer's instructions to securely mount the burner assembly in a suitable location.
- Connect the braided gas hose to the gas supply and the burner valves, ensuring all connections are tight and secure.
- Install the appropriate orifice for your gas type (natural gas or LP) according to the specifications provided.

2. Usage:

- Ensure all valves are closed before connecting to the gas supply.
- Open the gas supply valve slowly and check for leaks using soapy water; bubbles indicate a leak.
- Light the burner according to the instructions provided with the burner assembly.
- Adjust the flame to the desired height for your application.
- Monitor the operation closely and turn off the gas supply immediately after use.

Disposal Instructions

- Dispose of the product in accordance with local regulations for hazardous materials.
- Do not dispose of the product in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product operation, please refer to the manufacturer's contact information provided in the product packaging or on the official website.

By following these guidelines, you can ensure a safe and effective experience with your HALF TANK BLUING SYSTEM BROWNELLS HALF TANK BLUING SYSTEM BURNER ASSEMBLY. Always prioritize safety and compliance with local regulations. Thank you for your attention to these important instructions.
