

POWDERED GRAPHITE - BROWNELLS POWDERED GRAPHITE APPLICATOR BOTTLE, 0.32OZ

[Gun Cleaning & Chemicals](#) > [Oils & Lubricants](#) > [Dry Lubricants](#)

Lubricates & Reduces Wear; Won't Collect Contaminants

Weapons grade, natural, powdered graphite provides superior lubrication without collecting airborne contaminants. Dry formula will not trap dirt, run off, gum up, or lose its lubricating qualities when subjected to extreme temperatures. A favorite lube for heavy automatic weapons, especially in desert conditions. Slicks triggers and sears, bolt carriers, slides, frames, raceways and more by forming a soft, micro-fine layer of lubricating particles on moving parts. Greatly reduces wear, and helps resist powder and carbon fouling on treated parts. Works equally well for fishing reels, locks, cameras, and other household applications. Make sure parts are completely stripped of all wet lubes and greases before applying graphite. Do not apply oils or greases on top of graphite.

Attributes

- Name: [BROWNELLS POWDERED GRAPHITE APPLICATOR BOTTLE, 0.32OZ](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 083000012
- Mfr. No.: B1117CT
- Material: Powder
- Size: .32 oz
- Delivery weight: 0.018kg
- Shipping height: 20mm
- Shipping width: 41mm
- Shipping length: 69mm
- UPC: 050806105874

POWDERED GRAPHITE BROWNELLS POWDERED GRAPHITE APPLICATOR BOTTLE 0.32OZ Safety Instructions

Introduction

Thank you for choosing the Brownells Powdered Graphite Applicator Bottle. This product is designed to provide superior lubrication for various applications, including firearms, fishing reels, locks, and more. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure safe use of the product by following all instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Store in a cool, dry place away from direct sunlight and heat sources.
- Do not use the product for any purpose other than its intended use.
- Regularly check for any recalls or safety alerts regarding this product.

Specific Safety Precautions for Use

- **Avoid Inhalation:** Do not inhale the powdered graphite; use in a wellventilated area.
- **Avoid Skin Contact:** While the product is nontoxic, avoid prolonged skin contact. Wash hands after use.
- **Avoid Mixing with Other Products:** Do not mix powdered graphite with oils or greases; this can reduce its effectiveness.
- **Prevent Spills:** Use the applicator bottle carefully to avoid spills. Clean any spills immediately to prevent slips or falls.
- **Storage:** Keep the bottle tightly closed when not in use to prevent contamination and spillage.

Instructions for Installation and Usage

- **Preparation:**
 - Ensure that all parts to be treated are completely stripped of any wet lubes and greases.
 - Clean the surfaces to be lubricated to ensure optimal performance.
- **Application:**
 - Shake the applicator bottle gently before use to ensure even distribution of the graphite.
 - Apply a thin layer of powdered graphite to the moving parts that require lubrication.
 - Allow the graphite to settle and form a microfine layer on the parts.
- **PostApplication:**
 - Do not apply additional oils or greases on top of the graphite after application.
 - Regularly check the lubricated parts for any signs of wear or contamination.

Disposal Instructions

- Dispose of any unused or expired product in accordance with local regulations.
- Do not dispose of the product in household waste. Check for local recycling points that accept chemical products.
- Ensure that the product is sealed in its original container before disposal to prevent leakage.

Contact Information for Further Support

For any safety inquiries or further support, please consult your retailer or the product's official website for customer service information.

By following these safety instructions, you can ensure the safe and effective use of the Brownells Powdered Graphite Applicator Bottle. Thank you for your attention to these guidelines.
