

# ULTRASONIC CLEANING SOLUTION & OIL - ULTRASONIC GUN CLEANING SOLUTION 1 GALLON

[Gun Cleaning & Chemicals](#) > [Professional Cleaning Systems](#) > [Ultrasonic Cleaning Solutions](#)

## Advanced Formulas Power Away Dirt & Fouling; Lubricates, Fights Corrosion

Powerful, fast-acting cleaning and lubricating solutions are specially formulated for today's ultrasonic gun cleaning systems to thoroughly clean, condition, and protect your firearms. Safe for all metal surfaces, including carbon steel, aluminum, titanium, and stainless steel. Won't harm bluing, parkerizing, anodizing, or most paints. Environmentally safe, non-toxic, ammonia-free, and biodegradable with minimal odor, so both products can be safely used right in the shop. Cleaning Solution penetrates petroleum-based greases and oils and removes carbon fouling, dirt, grime, and powder residue to leave the metal completely clean. Gets into nooks and crannies for thorough, deep-down, in the pores cleaning without completely disassembling firearm. Economical, concentrated formula: mix 1 gallon of solution with 9 gallons of water to produce 10 gallons of cleaner. Water-displacing Oil with Thin Coat technology drains quickly from parts without puddling and leaves a microscopic layer of long-lasting corrosion protection. Ultra-low friction coefficient helps minimize wear on moving parts for smooth firearm operation and improved reliability.

## Attributes

- Name: [ULTRASONIC GUN CLEANING SOLUTION 1 GALLON](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 083000031
- Mfr. No.: 070-1035
- Size: 1 gal
- Delivery weight: 4.445kg
- Shipping height: 348mm
- Shipping width: 208mm
- Shipping length: 216mm
- UPC: 050806108714

# ULTRASONIC CLEANING SOLUTION & OIL ULTRASONIC GUN CLEANING SOLUTION 1 GALLON Safety Instruction Guide

## Introduction

Thank you for purchasing the ULTRASONIC CLEANING SOLUTION & OIL ULTRASONIC GUN CLEANING SOLUTION. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide carefully before using the product.

## General Safety Guidelines

- Always store the product in a cool, dry place away from direct sunlight.
- Keep out of reach of children and pets.
- Use personal protective equipment (PPE) such as gloves and safety goggles when handling the solution.
- Do not ingest the product. If swallowed, seek medical attention immediately.
- Avoid contact with skin and eyes. In case of contact, rinse with plenty of water and seek medical advice if irritation persists.
- Use the product only for its intended purpose as described in this guide.
- Ensure proper ventilation when using the product to avoid inhaling vapors.

## Specific Safety Precautions for Use

- Before using the cleaning solution, ensure that the firearm is unloaded and disassembled according to the manufacturer's instructions.
- Test the cleaning solution on a small, inconspicuous area of the metal surface to ensure compatibility before full application.
- Do not mix the cleaning solution with other chemicals or cleaning agents, as this may create harmful reactions.
- Avoid using the product on any surfaces that are not specified as safe (e.g., certain plastics or finishes).
- In case of a spill, clean it up immediately using appropriate absorbent materials and dispose of them according to local regulations.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the work area is clean and wellventilated.
- Gather all necessary tools and materials, including the ultrasonic cleaning system, the cleaning solution, and water.

### 2. Mixing the Solution:

- Mix 1 gallon of the ultrasonic cleaning solution with 9 gallons of water to create 10 gallons of cleaning solution.
- Stir the mixture thoroughly to ensure even distribution of the cleaning solution.

### 3. Cleaning Process:

- Place the disassembled firearm parts into the ultrasonic cleaning system.
- Submerge the parts in the prepared cleaning solution, ensuring they are fully covered.
- Set the ultrasonic cleaner to the recommended time and temperature settings as per the

manufacturer's guidelines.

- Once the cleaning cycle is complete, remove the parts and rinse them with clean water to remove any remaining cleaning solution.

#### **4. PostCleaning Care:**

- Dry the parts thoroughly using a clean, lintfree cloth.
- Apply a thin coat of the waterdisplacing oil to the metal surfaces to provide corrosion protection.

## **Disposal Instructions**

- Dispose of any leftover cleaning solution and used materials according to local regulations.
- Do not pour the cleaning solution down the drain or dispose of it in regular household waste.
- Check with local waste management authorities for proper disposal methods for hazardous materials.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the safety and use of this product, please contact the manufacturer or refer to the product packaging for additional resources.

By following these safety instructions, you can ensure a safe and effective cleaning experience with the ULTRASONIC CLEANING SOLUTION & OIL ULTRASONIC GUN CLEANING SOLUTION. Thank you for your attention to safety.
