

SILICON CARBIDE ABRASIVE COMPOUND #120 GRIT

[Gunsmith Tools & Supplies](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Lapping Compounds](#)

Sharp-Edged Silicon Carbide Self-Lubricating Petroleum Base

The very best abrasive compound for "hard fitting" two pieces of steel. Stands up to continued fitting even on hardened and heat-treated steel. Silicon carbide grit combined with a thick, long lasting lubricant breaks down into smaller and smaller sharp-edged particles to keep cutting longer than aluminum oxide compounds. For use on steel only. Remove with solvent.

Attributes

- Name: [SILICON CARBIDE ABRASIVE COMPOUND #120 GRIT](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 083045120
- Mfr. No.:
- Grit: 120
- Delivery weight: 0.113kg
- Shipping height: 41mm
- Shipping width: 89mm

Safety Instruction Guide for Silicon Carbide Abrasive Compound #120 Grit

Introduction

Thank you for choosing the Silicon Carbide Abrasive Compound #120 Grit. This product is designed for "hard fitting" two pieces of steel, ensuring effective performance even on hardened and heattreated steel. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read the product label and safety instructions before use.
- Use the product only for its intended purpose, which is on steel surfaces.
- Keep out of reach of children and vulnerable individuals.
- Ensure adequate ventilation when using this product to avoid inhalation of dust.
- Wear appropriate personal protective equipment (PPE), including gloves and eye protection.
- Avoid contact with skin and eyes. In case of contact, rinse thoroughly with water.
- Do not ingest the product. If ingested, seek medical attention immediately.
- Report any unsafe products or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

• Hazard Identification:

- The product contains silicon carbide grit, which can generate dust during use.
- Prolonged exposure to dust may cause respiratory issues.
- The lubricant in the compound may cause skin irritation.

• Avoiding Hazards:

- Always use the product in a wellventilated area.
- Use a dust mask or respirator to minimize inhalation of dust.
- Wear gloves to prevent skin irritation.
- If you experience any adverse reactions, discontinue use immediately and seek medical advice.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the surfaces to be treated are clean and free from debris.
- Shake the container well before use to ensure proper mixing of the compound.

2. Application:

- Apply a small amount of the abrasive compound to the steel surface.
- Use a suitable tool (e.g., a lapping tool) to spread the compound evenly.
- Work the compound into the steel surface using a consistent motion.

3. PostApplication:

- After use, allow the compound to settle for a few moments to enhance effectiveness.

- Remove excess compound with a solvent to ensure a clean working area.

4. Cleanup:

- Clean tools and surfaces with an appropriate solvent.
- Dispose of any leftover compound according to local regulations.

Disposal Instructions

- Dispose of the product container and any unused compound in accordance with local waste disposal regulations.
- Do not dispose of the product in household waste.
- Contact your local waste management authority for information on hazardous waste disposal.

Contact Information for Further Support

For any inquiries regarding safety or product use, please refer to the manufacturer's contact information provided on the product packaging or visit the official website.

By following these guidelines, you can ensure a safe and effective experience with the Silicon Carbide Abrasive Compound #120 Grit. Thank you for your attention to safety.
