

SILICON CARBIDE ABRASIVE COMPOUND - BROWNELLS SILICON CARBIDE ABRASIVE COMPOUND #320 GRIT

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Abrasives](#) > [Lapping Compounds](#)

Sharp-Edged Silicon Carbide Self-Lubricating Petroleum Base

The very best abrasive compound for "hard fitting" two pieces of steel. Stands up to continued fitting even on hardened and heat-treated steel. Silicon carbide grit combined with a thick, long lasting lubricant breaks down into smaller and smaller sharp-edged particles to keep cutting longer than aluminum oxide compounds. For use on steel only. Remove with solvent.

Attributes

- Name: [BROWNELLS SILICON CARBIDE ABRASIVE COMPOUND #320 GRIT](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 083045320
- Mfr. No.: NONE
- Grit: 320
- Delivery weight: 0.159kg
- Shipping height: 41mm
- Shipping width: 89mm
- Shipping length: 89mm
- UPC: 050806103139

Safety Instruction Guide for SILICON CARBIDE ABRASIVE COMPOUND BROWNELLS SILICON CARBIDE ABRASIVE COMPOUND #320 GRIT

Introduction

Thank you for choosing the SILICON CARBIDE ABRASIVE COMPOUND from BROWNELLS. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read the instructions carefully before use.

General Safety Guidelines

- Ensure safe use of the abrasive compound by following these guidelines:
 - Always use the product in a wellventilated area.
 - Wear appropriate personal protective equipment (PPE) such as gloves, goggles, and a dust mask to prevent inhalation and skin contact.
 - Keep the product out of reach of children and vulnerable individuals.
 - Avoid using the compound near open flames or high heat sources.
 - In case of accidental exposure, seek medical advice immediately.

Specific Safety Precautions for Use

- When using the SILICON CARBIDE ABRASIVE COMPOUND, please observe the following precautions:
 - Use only on steel surfaces; do not use on other materials.
 - Ensure that the surfaces to be treated are clean and free from contaminants.
 - Do not mix with other abrasive compounds or substances.
 - Store the compound in a cool, dry place, away from direct sunlight and heat.
 - Dispose of any unused product according to local regulations.

Instructions for Installation and Usage

- To ensure safe and effective use of the abrasive compound, follow these steps:
 1. Prepare the surface by cleaning it thoroughly to remove any oils, dirt, or debris.
 2. Apply a small amount of the SILICON CARBIDE ABRASIVE COMPOUND to the area to be fitted.
 3. Use a lapping tool or appropriate equipment to work the compound into the steel surfaces.
 4. Regularly check the surfaces for desired fit, adding more compound as necessary.
 5. After achieving the desired fit, remove excess compound using a suitable solvent.
 6. Clean all tools and surfaces after use to prevent contamination.

Disposal Instructions

- Proper disposal of the SILICON CARBIDE ABRASIVE COMPOUND is crucial:
 - Do not dispose of the product in regular household waste.
 - Follow local regulations for hazardous waste disposal.
 - Contact local waste management authorities for guidance on safe disposal methods.

Contact Information for Further Support

- For any safety inquiries or concerns regarding the SILICON CARBIDE ABRASIVE COMPOUND, please contact your local distributor or manufacturer directly. They can provide specific information and assistance related to the product.

Conclusion

By following the safety instructions outlined in this guide, you can ensure the safe and effective use of the SILICON CARBIDE ABRASIVE COMPOUND. Always prioritize safety and adhere to the guidelines to minimize risks. Thank you for your attention to these important safety measures.
