# HUMIDITY CARDS 5 PACK Safety Instruction Guide

## Introduction

Thank you for choosing the HUMIDITY CARDS 5 PACK by BROWNELLS. These cards are designed to help you monitor humidity levels, preventing costly damage to firearms and other sensitive equipment. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the humidity cards are used in a suitable environment where monitoring humidity levels is necessary, such as gun safes or storage areas for optical instruments.
- Keep the cards out of reach of children and vulnerable individuals to prevent accidental misuse.
- Regularly check the color change on the cards to ensure they are functioning correctly.
- Dispose of any damaged or discolored cards responsibly.

## Specific Safety Precautions for Use

- Do not expose the humidity cards to extreme temperatures or direct sunlight, as this may affect their performance.
- Avoid using the cards in environments where they may come into contact with moisture or liquids.
- If the card shows a permanent color change (stays pink), it indicates a high humidity level; take immediate action to reduce humidity in the area.
- Do not attempt to clean or modify the cards; they are designed for singleuse monitoring.

## Instructions for Installation and Usage

### 1. Placement:

- Place the humidity cards in areas where you need to monitor humidity, such as inside gun safes, storage boxes, or near sensitive equipment.

### 2. Monitoring:

- Observe the color of the cards regularly. The card will change from blue to pink as humidity levels increase.
- Use the threedot cards for more precise monitoring of humidity levels.

### 3. Action:

- If the cards indicate high humidity (pink), take steps to reduce humidity levels, such as using a dehumidifier or silica gel packets.

### 4. Replacement:

- Replace the cards if they become discolored or if the color change does not revert to blue after humidity levels are reduced.

## Disposal Instructions

- Dispose of the humidity cards in accordance with local regulations for nonhazardous waste.
- Do not dispose of the cards in water bodies or landfills where they may cause environmental harm.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the HUMIDITY CARDS 5 PACK, please refer to the manufacturer's contact information provided on the packaging or user manual.

By following these safety instructions, you can ensure the effective use of your HUMIDITY CARDS 5 PACK while maintaining a safe environment. Thank you for your attention to these guidelines.
