

# MX FINISHING WHEELS - BROWNELLS MX FINISHING WHEEL, 1/2"X 1/2", 120 GRIT, 3 PACK

[Gunsmith Tools](#) > [Power Tools & Accessories](#) > [Hard Abrasive Tools](#) > [Hard Abrasive Finishing Wheels](#)

## Long Lasting, Popular Grits For Polishing & Shaping

Non-woven, cotton fiber, bonded with aluminum oxide abrasive retains its shape well and is ideal for finishing, polishing, final shaping, and removing scratch marks. Non-loading; works great on aluminum and brass. Starter Kit has one wheel of each grit packed in a compartmented kit box. Refill paks contain three wheels of one grit. 1/8" shank fits hand-held, high-speed, rotary tools.

# Safety Instruction Guide for MX Finishing Wheels

## Introduction

Thank you for choosing the MX Finishing Wheels from Brownells. These nonwoven, cotton fiber wheels are designed for finishing, polishing, final shaping, and removing scratch marks on various materials, including aluminum and brass. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always follow the manufacturer's instructions for use.
- Ensure that the product is suitable for the task at hand.
- Use personal protective equipment (PPE) such as safety goggles, gloves, and a dust mask to protect against dust and debris.
- Keep the working area clean and welllit to prevent accidents.
- Store the product in a cool, dry place away from direct sunlight and moisture.
- Regularly inspect the wheels for damage or wear before use.
- Do not use the wheels on materials that could cause them to break or degrade.

## Specific Safety Precautions for Use

- Ensure the shank of the wheel is securely attached to the rotary tool before use.
- Do not exceed the recommended speed of the rotary tool while using the MX Finishing Wheels.
- Avoid applying excessive pressure while using the wheels to prevent overheating and damage.
- Do not use the wheels for tasks they are not designed for, such as cutting or grinding.
- Keep hands and other body parts clear of the spinning wheel during operation.
- If the wheel becomes discolored or shows signs of wear, discontinue use immediately.
- Do not use the wheels near flammable materials or in explosive atmospheres.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the rotary tool is unplugged before installation.
- Select the appropriate MX Finishing Wheel based on the desired grit.
- Insert the 1/8" shank of the wheel into the rotary tool's chuck.
- Tighten the chuck securely to hold the wheel in place.
- Check that the wheel is properly installed and does not wobble.

### 2. Usage:

- Plug in the rotary tool and turn it on at a low speed.
- Gradually increase the speed to the desired level.
- Hold the material securely in place while applying the wheel gently to the surface.
- Move the wheel in a consistent motion to achieve an even finish.
- Avoid staying in one spot for too long to prevent overheating the wheel and material.
- After use, turn off the rotary tool and unplug it before changing wheels or performing maintenance.

## Disposal Instructions

- Dispose of used MX Finishing Wheels in accordance with local waste disposal regulations.
- Do not dispose of wheels in regular household waste if they are contaminated with hazardous materials.
- Consider recycling options if available in your area.

## Contact Information for Further Support

For any safety inquiries or additional support regarding the MX Finishing Wheels, please refer to the contact information provided on the product packaging or visit the manufacturer's website.

## Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your MX Finishing Wheels. Always prioritize safety and proper handling to maximize the benefits of this product. Thank you for your attention to these important guidelines.
