

# MX FINISHING WHEELS - BROWNELLS MX FINISHING WHEEL, 1/4"X 1/2", 50 GRIT, 3 PACK

[Gunsmith Tools](#) > [Power Tools & Accessories](#) > [Hard Abrasive Tools](#) > [Hard Abrasive Finishing Wheels](#)

## Long Lasting, Popular Grits For Polishing & Shaping

Non-woven, cotton fiber, bonded with aluminum oxide abrasive retains its shape well and is ideal for finishing, polishing, final shaping, and removing scratch marks. Non-loading; works great on aluminum and brass. Starter Kit has one wheel of each grit packed in a compartmented kit box. Refill paks contain three wheels of one grit. 1/8" shank fits hand-held, high-speed, rotary tools.

# MX Finishing Wheels Safety Instruction Guide

## Introduction

Thank you for choosing the MX Finishing Wheels by Brownells. These wheels are designed for effective finishing, polishing, and shaping of materials such as aluminum and brass. This safety instruction guide ensures you understand how to use the product safely and effectively while complying with EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always read and understand the product instructions before use.
- Ensure that the product is suitable for your intended application.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check the product for any signs of damage or wear before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), including safety goggles and dust masks, to protect against dust and debris.
- Ensure that the work area is wellventilated to minimize inhalation of dust.
- Do not exceed the recommended speed of your rotary tool when using the wheels.
- Avoid using the wheels on materials that may pose a risk of injury or damage.
- Always secure the workpiece to prevent movement during use.
- Use the wheels only for their intended purpose and avoid any modifications.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure your rotary tool is unplugged before installation.
- Select the appropriate MX Finishing Wheel based on the grit required.
- Insert the 1/8" shank of the wheel into the rotary tool's collet.
- Tighten the collet securely to hold the wheel in place.

### 2. Usage:

- Plug in and turn on your rotary tool.
- Allow the wheel to reach full speed before making contact with the workpiece.
- Apply light pressure when using the wheel to avoid damage and ensure a smooth finish.
- Keep the tool moving to prevent overheating and loading of the wheel.
- After use, turn off the rotary tool and unplug it before changing wheels or performing maintenance.

## Disposal Instructions

- Dispose of used or damaged wheels in accordance with local regulations.
- Do not dispose of the product in household waste.
- Check with local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For further assistance or inquiries regarding safety, please refer to the manufacturer's website or customer service.

By following these guidelines, you can ensure the safe and effective use of your MX Finishing Wheels. Thank you for prioritizing safety in your projects!
