

# MX FINISHING WHEELS - BROWNELLS MX FINISHING WHEEL, 1/4"X 1/2", 120 GRIT, 3 PACK

[Gunsmith Tools](#) > [Power Tools & Accessories](#) > [Hard Abrasive Tools](#) > [Hard Abrasive Finishing Wheels](#)

## Long Lasting, Popular Grits For Polishing & Shaping

Non-woven, cotton fiber, bonded with aluminum oxide abrasive retains its shape well and is ideal for finishing, polishing, final shaping, and removing scratch marks. Non-loading; works great on aluminum and brass. Starter Kit has one wheel of each grit packed in a compartmented kit box. Refill paks contain three wheels of one grit. 1/8" shank fits hand-held, high-speed, rotary tools.

# Safety Instruction Guide for MX Finishing Wheels

## Introduction

Thank you for choosing the MX Finishing Wheels by Brownells. These wheels are designed for finishing, polishing, final shaping, and removing scratch marks on various materials. This safety instruction guide provides essential information to ensure safe and effective use of the product, in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always read and understand the safety instructions before using the product.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the wheels for damage before each use. Do not use damaged wheels.
- Use appropriate personal protective equipment (PPE), including safety goggles and dust masks.
- Ensure that the workspace is clean and free from hazards before starting work.
- Follow all manufacturer instructions for the use of tools and accessories.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - The wheels may generate dust and debris during use. Inhalation of this dust can be harmful.
  - The wheels can become hot during operation. Avoid direct contact with the wheel during and immediately after use.
  - Ensure that the rotary tool is securely attached to the shank of the wheel to prevent accidents.
- **Avoiding Hazards:**
  - Use the wheels only with a handheld, highspeed rotary tool that is compatible with a 1/8" (3.2mm) shank.
  - Do not exceed the maximum speed rating of the rotary tool when using the wheels.
  - Always operate the tool in a wellventilated area to minimize inhalation of dust.
  - Do not force the wheel into the material being worked on. Let the tool do the work.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the rotary tool is unplugged or turned off before installation.
- Insert the 1/8" (3.2mm) shank of the MX Finishing Wheel into the chuck of the rotary tool.
- Tighten the chuck securely to hold the wheel in place.

### 2. Usage:

- Plug in or turn on the rotary tool.
- Hold the tool firmly with both hands for better control.
- Begin at a low speed and gradually increase to the desired speed for the task.
- Move the wheel gently across the surface of the material, applying light pressure.
- After use, turn off the rotary tool and allow the wheel to come to a complete stop before setting it down.

## **Disposal Instructions**

- Dispose of used wheels in accordance with local regulations regarding waste disposal.
- Do not dispose of wheels in regular household waste if they contain hazardous materials.
- Consider recycling options for materials when available.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the MX Finishing Wheels, please refer to the manufacturer's contact information provided on the packaging or product documentation.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with the MX Finishing Wheels. Always prioritize safety and do not hesitate to seek assistance if you have any questions or concerns regarding the use of this product.
