

# MX FINISHING WHEELS - BROWNELLS MX FINISHING WHEEL, 1/4"X 1/2", 180 GRIT, 3 PACK

[Gunsmith Tools](#) > [Power Tools & Accessories](#) > [Hard Abrasive Tools](#) > [Hard Abrasive Finishing Wheels](#)

## Long Lasting, Popular Grits For Polishing & Shaping

Non-woven, cotton fiber, bonded with aluminum oxide abrasive retains its shape well and is ideal for finishing, polishing, final shaping, and removing scratch marks. Non-loading; works great on aluminum and brass. Starter Kit has one wheel of each grit packed in a compartmented kit box. Refill paks contain three wheels of one grit. 1/8" shank fits hand-held, high-speed, rotary tools.

# Safety Instructions for MX Finishing Wheels

## Introduction

Thank you for choosing the MX Finishing Wheels by Brownells. These wheels are designed for finishing, polishing, and final shaping of materials such as aluminum and brass. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always use the product as intended and according to the manufacturer's instructions.
- Ensure that the product is suitable for the task at hand and the materials being worked on.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check the product for wear or damage before use.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), including safety goggles and gloves, to protect against debris and dust.
- Ensure that your work area is clean and free from clutter to avoid accidents.
- Use only on compatible materials; do not use on materials that may react adversely with aluminum oxide abrasive.
- Avoid inhaling dust generated during use; consider using a dust mask if necessary.
- Do not exceed the recommended speed of the rotary tool to prevent overheating or breakage of the wheel.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure that the rotary tool is unplugged before installation.
- Select the appropriate grit wheel for your task from the starter kit or refill pack.

### 2. Installation

- Insert the 1/8" shank of the MX Finishing Wheel into the chuck of the rotary tool.
- Tighten the chuck securely to ensure the wheel is held firmly in place.

### 3. Usage

- Plug in the rotary tool and turn it on at a low speed initially.
- Gradually increase the speed as needed for your specific task.
- Apply light pressure while using the wheel; do not force the wheel against the material.
- Move the tool in a controlled manner to achieve the desired finish.

### 4. PostUse Care

- After use, turn off and unplug the rotary tool.
- Clean the work area and remove any debris generated during the process.
- Inspect the wheel for wear and replace if necessary.

## **Disposal Instructions**

- Dispose of used MX Finishing Wheels in accordance with local regulations for nonhazardous materials.
- Do not dispose of the product in household waste. Check for recycling options in your area.

## **Contact Information for Further Support**

For any questions or concerns regarding the MX Finishing Wheels, please refer to the manufacturer's contact information available on the product packaging or the official website.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience while using the MX Finishing Wheels. Always prioritize safety and compliance with the EU General Product Safety Regulation. Thank you for your attention to these important guidelines.
