

MX FINISHING WHEELS - BROWNEllS MX FINISHING WHEEL, 1/4"X 1/2", 320 GRIT, 3 PACK

[Gunsmith Tools](#) > [Power Tools & Accessories](#) > [Hard Abrasive Tools](#) > [Hard Abrasive Finishing Wheels](#)

Long Lasting, Popular Grits For Polishing & Shaping

Non-woven, cotton fiber, bonded with aluminum oxide abrasive retains its shape well and is ideal for finishing, polishing, final shaping, and removing scratch marks. Non-loading; works great on aluminum and brass. Starter Kit has one wheel of each grit packed in a compartmented kit box. Refill paks contain three wheels of one grit. 1/8" shank fits hand-held, high-speed, rotary tools.

Safety Instruction Guide for MX Finishing Wheels

Brownells 1/4" x 1/2" MX Wheel 320 Grit 3 Pack

Introduction

Thank you for choosing the MX Finishing Wheels by Brownells. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the product is used in accordance with the instructions provided.
- Always inspect the product before use for any signs of damage or wear.
- Use the product only for its intended purpose, as described in this guide.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls and safety updates through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), including safety goggles and a dust mask, to protect against debris and dust.
- Ensure that the rotary tool is compatible with the 1/8" (3.2mm) shank of the finishing wheels.
- Do not exceed the maximum RPM rating of the rotary tool when using the finishing wheels.
- Avoid applying excessive pressure during use to prevent the wheel from breaking or causing injury.
- Do not use the finishing wheels on materials that may produce hazardous dust or fumes.
- Keep hands and other body parts away from the rotating wheel during operation.

Instructions for Installation and Usage

1. Installation:

- Ensure the rotary tool is unplugged or turned off before installation.
- Insert the 1/8" shank of the finishing wheel into the collet of the rotary tool.
- Tighten the collet securely to ensure the wheel is held firmly in place.

2. Usage:

- Plug in or turn on the rotary tool.
- Allow the wheel to reach full speed before making contact with the workpiece.
- Use a light, consistent pressure when applying the wheel to the surface to be finished.
- Move the wheel smoothly across the surface to achieve the desired finish.
- After use, turn off the rotary tool and allow the wheel to come to a complete stop before removing it.

Disposal Instructions

- Dispose of used or damaged finishing wheels in accordance with local waste disposal regulations.
- Do not dispose of the product in regular household waste if it contains hazardous materials.
- Consider recycling options for the product packaging where applicable.

Contact Information for Further Support

For any questions or concerns regarding the use of the MX Finishing Wheels, please refer to the manufacturer's website or contact your local distributor for assistance. Ensure that you have your product details on hand for a more efficient response.

By following these guidelines, you can ensure a safe and effective experience when using the MX Finishing Wheels. Thank you for your attention to safety.
