

MX FINISHING WHEELS - BROWNELLS MX FINISHING WHEEL STARTER KIT, 1/4" X 1/2"

[Gunsmith Tools](#) > [Power Tools & Accessories](#) > [Hard Abrasive Tools](#) > [Hard Abrasive Finishing Wheels](#)

Long Lasting, Popular Grits For Polishing & Shaping

Non-woven, cotton fiber, bonded with aluminum oxide abrasive retains its shape well and is ideal for finishing, polishing, final shaping, and removing scratch marks. Non-loading; works great on aluminum and brass. Starter Kit has one wheel of each grit packed in a compartmented kit box. Refill paks contain three wheels of one grit. 1/8" shank fits hand-held, high-speed, rotary tools.

MX Finishing Wheels Safety Instruction Guide

Introduction

Thank you for choosing the MX Finishing Wheels Brownells 1/4" x 1/2" MX Wheel Starter Kit. This guide provides essential safety information and instructions to ensure safe and effective use of this product. Please read and follow these instructions carefully to minimize risks and maximize performance.

General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using the MX Finishing Wheels.
- Ensure your workspace is clean, dry, and wellventilated to prevent accidents.
- Keep the product out of reach of children and pets.
- Inspect the wheels for damage before use. Do not use if damaged.
- Follow all manufacturer instructions for your handheld rotary tools to ensure safe operation.
- Be aware of your surroundings and ensure no one is in close proximity while operating the tool.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Use the MX Finishing Wheels only with tools that have a compatible 1/8" (3.2mm) shank.
- Do not exceed the maximum RPM rating of your rotary tool to avoid wheel breakage and personal injury.
- Avoid applying excessive pressure while using the wheels; let the tool and wheel do the work.
- Do not use the wheels on materials that may produce harmful dust or fumes without appropriate ventilation or filtration.
- If you experience any unusual vibrations, sounds, or smells during operation, stop immediately and inspect the tool and wheel.
- Do not use the wheels for purposes other than those specified (finishing, polishing, shaping, and removing scratch marks).

Instructions for Installation and Usage

1. Installation:

- Ensure the rotary tool is unplugged or turned off before changing wheels.
- Remove the existing wheel from the tool by loosening the collet or chuck.
- Select the desired MX Finishing Wheel from the Starter Kit.
- Insert the 1/8" (3.2mm) shank of the wheel into the collet or chuck of the rotary tool.
- Tighten the collet or chuck securely to ensure the wheel is firmly attached.

2. Usage:

- Plug in or turn on the rotary tool.
- Hold the tool firmly with both hands for better control.
- Position the wheel at a slight angle to the workpiece to enhance finishing results.
- Move the wheel gently across the surface, allowing it to do the work without excessive pressure.
- Frequently check the workpiece and wheel for desired results and wear.

Disposal Instructions

- Dispose of used MX Finishing Wheels in accordance with local regulations for hazardous waste.
- Do not dispose of the wheels in regular household waste.
- Ensure that any packaging materials are recycled or disposed of properly.

Contact Information for Further Support

For any questions or concerns regarding the MX Finishing Wheels or safety instructions, please refer to the manufacturer's contact information provided on the product packaging or the official website.

By following these safety guidelines and instructions, you will ensure a safe and effective experience with the MX Finishing Wheels. Thank you for your attention to safety and for choosing our product.
