

# NEEDLE OILER BOTTLES - BROWNELLS NEEDLE OILERS, 1 FL. OZ., 3 PACK

[Gunsmith Tools](#) > [Shop Accessories & Supplies](#) > [Liquid Squeeze Bottles](#)

## Applies Oil, Solvent Or Other Liquids Right Where You Need Them

Polyethylene bottle with hollow, steel tube places just the right amount of lubricant, cleaner or other liquid exactly where you want it. Flexible, translucent body aids in metering the contents and allows viewing contents of bottle; resists breakdown from most petroleum based oils and common gun solvents. Eliminates over-lubrication and waste. Threaded top features a heavy-duty, inner, rubber seal and removable slip cap; both seal tightly and prevent leaks. NOTE: Color and style of actual bottle may vary slightly from photograph. Function is not affected.

## Attributes

- Name: [BROWNELLS NEEDLE OILERS, 1 FL. OZ., 3 PACK](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 084000127

# Safety Instruction Guide for Needle Oiler Bottles

## Introduction

Thank you for choosing the Needle Oiler Bottles from Brownells. This guide provides important safety instructions and information to ensure the safe use of this product. Please read this guide carefully before using the oiler bottles.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is to dispense lubricants, cleaners, or other liquids.
- Keep the oiler bottles out of reach of children and vulnerable individuals to prevent accidental use or ingestion.
- Always check the product for any damage before use. Do not use if the bottle or cap is cracked or damaged.
- Store the bottles in a cool, dry place away from direct sunlight and heat sources.
- Do not expose the oiler bottles to extreme temperatures or pressure, as this may cause them to leak or burst.

## Specific Safety Precautions for Use

- Use the oiler bottles in wellventilated areas to avoid inhalation of fumes from the liquids being dispensed.
- Avoid contact with skin and eyes when using hazardous liquids. Wear protective gloves and goggles if necessary.
- Do not mix different types of liquids in the same bottle, as chemical reactions may occur.
- Do not fill the bottles with liquids that are not compatible with polyethylene, as this may cause the bottle to degrade.
- Ensure the cap is tightly secured after each use to prevent leaks and evaporation of contents.

## Instructions for Installation and Usage

### 1. Filling the Bottle:

- Remove the slip cap from the top of the bottle.
- Carefully pour the desired liquid into the bottle up to the indicated fill line (approximately 1 fl. oz. or 30 ml).
- Replace the slip cap securely.

### 2. Using the Bottle:

- Hold the bottle upright and squeeze gently to dispense the liquid through the hollow steel tube.
- Aim the tube directly at the area where you want to apply the lubricant or cleaner.
- Adjust the pressure applied to the bottle to control the amount dispensed.

### 3. Cleaning After Use:

- After using the oiler bottle, clean the exterior with a damp cloth to remove any residue.
- If necessary, rinse the inside with warm water to prevent clogging, ensuring it is completely dry before refilling.

## **Disposal Instructions**

- Dispose of empty or unused oiler bottles in accordance with local regulations for plastic waste.
- Do not incinerate the bottles, as this may release harmful fumes.
- If the bottle contained hazardous materials, follow your local guidelines for hazardous waste disposal.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the Needle Oiler Bottles, please reach out to the designated contact point in your country.

## **Conclusion**

Following these safety instructions will help ensure your safe and effective use of the Needle Oiler Bottles. Always prioritize safety and consult this guide whenever you have questions about the product. Thank you for your attention to these important safety guidelines.
