PURE LEAD BARREL VISE SHIMS Safety Instruction Guide

Introduction

Thank you for choosing the PURE LEAD BARREL VISE SHIMS from BROWNELLS. These soft, pure lead shims are designed to provide a secure grip between your barrel and vise bushings, enhancing your work experience while ensuring the safety of your equipment. This guide provides essential safety instructions, precautions, and disposal information to ensure your safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand all safety instructions before using the product.
- Ensure that the product is suitable for your specific application.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of damage or wear before use.
- If the product is damaged, discontinue use immediately and dispose of it properly.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use the shims only as intended, between barrel and vise bushings.
- Ensure that the barrel and vise are securely positioned before applying pressure.
- Avoid using excessive force when tightening the vise; overtightening can lead to damage.
- If you notice any slippage or movement during use, stop immediately and reassess the setup.
- Do not use the shims on surfaces that are not compatible with lead material.
- Store the shims in a cool, dry place away from direct sunlight and extreme temperatures.

Instructions for Installation and Usage

1. Preparation

- Ensure that both the barrel and vise bushings are clean and free of debris.
- Gather all necessary tools for installation.

2. Cutting the Shims (if necessary)

- If the shims need to be cut to fit, use a sharp utility knife for clean edges.
- Wear protective gloves while cutting to avoid injury.

3. Installation

- Place the lead shim between the barrel and the vise bushing.
- Align the shim properly to cover the contact area completely.

4. Securing the Barrel

- Gently close the vise around the barrel, applying even pressure.
- Monitor the fit and ensure that the shim is not pinched or damaged during tightening.

5. Usage

- Proceed with your work while regularly checking the stability of the setup.

- If the shim shows signs of wear or damage, replace it immediately.

Disposal Instructions

- Dispose of any damaged or worn shims in accordance with local regulations for lead disposal.
- Do not throw the shims in regular household waste.
- Contact your local waste management facility for proper disposal guidelines.

Contact Information for Further Support

For any inquiries regarding the safety of this product or to report potential hazards, please contact your local EU-based consumer safety authority.

By following these guidelines, you can ensure a safe and effective use of the PURE LEAD BARREL VISE SHIMS. Thank you for your attention to safety and for choosing BROWNELLS products.
