The Parts You Need To Rebuild An Old Tube

For most of the older .22's that no longer have a factory replacement magazine tube, this kit provides the parts needed to custom-make a magazine to fit. All tube blanks have a rolled crimp on one end only. Kit No. 2: .350" O.D. tube, 22-3/8" (56.8cm) long. 32" (81.2cm) spring with follower, plug and cross pin. For some Marlins, Remingtons, Stevens and others. Will not fit tubular magazines with a plastic follower such as the Marlin model 60 or derivatives of it. This kit does not have the hole drilled in the tube. The kit is used for multiple applications and are designed to be finished to length and drilled by the end user.

Safety Instruction Guide for .22 Magazine Tube Kit No. 2

Introduction

Thank you for purchasing the .22 Magazine Tube Kit No. 2. This product is designed to help you custommake a magazine tube for older .22 firearms that no longer have factory replacement options. To ensure your safety and the proper use of this product, please read and follow the instructions and guidelines outlined in this document.

General Safety Guidelines

- Always handle firearms and related components with care and respect.
- Ensure that the firearm is unloaded before working on it.
- Keep the kit and its components out of reach of children and unauthorized users.
- Do not use this kit for any purpose other than its intended use.
- Report any unsafe products or accidents to local authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:**

- Improper installation may lead to malfunction or injury.
- Sharp edges on tube blanks may cause cuts; handle with care.
- Springs under tension can cause injury if released unexpectedly.

- **Instructions for Avoiding Hazards:**

- Always wear safety goggles when cutting or drilling the tube.
- Use appropriate tools and techniques for installation.
- Ensure the workspace is clean and free from distractions.
- Do not attempt to modify the kit components beyond the specified instructions.

- **AudienceSpecific Warnings:**

- This kit is not intended for use by individuals under the age of 18 without adult supervision.
- Ensure that all users are familiar with firearm safety practices.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a drill, measuring tape, and safety goggles.
- Ensure that you have a clean and welllit workspace.

2. Measuring and Cutting:

- Measure the desired length of the magazine tube based on your firearm specifications.
- Use a pipe cutter or saw to cut the tube to the required length.
- Ensure that the cut edges are smooth to avoid injury.

3. Drilling:

- Mark the locations for any necessary holes based on your firearm model.
- Carefully drill holes as needed, ensuring that you maintain control of the drill to avoid injury.

4. Assembly:

- Insert the spring and follower into the tube.
- Secure the end cap or plug as required.
- Ensure that all components are properly fitted and secured.

5. Final Checks:

- Inspect the completed magazine tube for any sharp edges or defects.
- Test the magazine for proper operation in your firearm before use.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local waste disposal regulations.
- Do not discard in regular household waste if the item is deemed hazardous.
- Ensure that all components are out of reach of children during disposal.
