The Parts You Need To Rebuild An Old Tube

For most of the older .22's that no longer have a factory replacement magazine tube, these 3 kits provide the parts needed to custom-make a magazine to fit. All tube blanks have a rolled crimp on one end only. Kit No. 3: Undersized .343" O.D. 17-15/16" long, centerless ground, brass tube with 24" spring, follower and long cap for Savage 29A tubes as well as some earlier Savage/Stevens. This kit does not have the hole drilled in the tube. The kit is used for multiple applications and are designed to be finished to length and drilled by the end user.

Safety Instruction Guide for .22 MAGAZINE TUBE KIT NO. 3

Introduction

Thank you for choosing the .22 MAGAZINE TUBE KIT NO. 3 from Brownells. This kit is designed to help you custommake a magazine tube for older .22 firearms that no longer have a factory replacement available. It is important to follow safety guidelines and instructions to ensure safe and effective use of this product.

General Safety Guidelines

- Ensure that all components are intact and free from defects before use.
- Always handle firearms and related accessories with care and responsibility.
- Keep the kit and all components out of reach of children and unauthorized users.
- Use protective eyewear when working with tools and during installation.
- Familiarize yourself with your firearm's manual and safety instructions prior to use.
- Report any unsafe products or accidents to the appropriate authorities.
- Check regularly for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

• Potential Hazards:

- Improper installation may lead to malfunction or injury.
- Use of the kit with incompatible firearms can cause damage or accidents.
- Sharp edges on components may pose a risk of cuts.

• Instructions to Avoid Hazards:

- Ensure you are using the kit with compatible firearm models only.
- Read all instructions thoroughly before starting the installation process.
- Use appropriate tools and techniques to avoid injury during installation.
- Do not attempt to modify components beyond the intended design.

• AgeSpecific Warnings:

- This product is not intended for use by individuals under the age of 18 without adult supervision.
- Ensure that only trained and responsible individuals handle the installation and usage of this kit.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a drill, measuring tape, and safety equipment.
- Verify that you have all components of the kit: brass tube, spring, follower, and cap.

2. Measuring and Cutting the Tube:

- Measure the required length for your specific application.
- Mark the tube where it needs to be cut, ensuring you account for the rolled crimp at one end.
- Use a pipe cutter or saw to cut the tube to the desired length.

3. Drilling the Hole:

- Position the tube securely in a vice or clamp.
- Use a drill bit that matches the specifications for your firearm's magazine tube.
- Drill a hole at the marked location, ensuring it is clean and free from burrs.

4. Assembly:

- Insert the spring into the tube, followed by the follower.
- Attach the long cap securely to the end of the tube.
- Ensure all components are fitted properly and function as intended.

5. Final Inspection:

- Check for any sharp edges or defects in the assembly.
- Test the magazine tube in your firearm to ensure proper fit and function.
- Follow your firearm's operating instructions for loading and unloading.

Disposal Instructions

- Dispose of any unused or defective components in accordance with local regulations.
- Do not dispose of components in regular household waste.
- Contact your local waste management authority for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product support, please refer to the contact information provided in your product packaging or visit the manufacturer's website.

Thank you for your attention to safety. Enjoy using your .22 MAGAZINE TUBE KIT NO. 3 responsibly!
