

BEDDING/MASKING TAPE, 2"

[Gunsmith Tools & Supplies](#) > [Stock Work & Finishing](#) > [Stock Bedding Accessories](#) > [Bedding Tape](#)

Extra-Heavy Duty For Abrasive Blasting

Easily protects the carefully polished sides of 1911 Auto Slides, pistol frames or shotgun and rifle receivers from abrasive grit in the blast cabinet. High-density, PVC tape, with extra sticky adhesive, stays put and will not peel back when subjected to blast pressures as high as 100 psi and media as coarse as 60 mesh sand. Cuts and trims easily with a sharp knife blade.

Safety Instruction Guide for BEDDING/MASKING TAPE

Introduction

Thank you for choosing the BEDDING/MASKING TAPE, 2". This product is designed to protect the polished surfaces of various firearms from abrasive grit during blasting operations. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- **Product Safety:** This tape is intended for nonfood use only. Ensure that it is used in accordance with the guidelines provided in this document.
- **Enhanced Recalls:** In the event of a product recall, you will be notified through standardized notices. Please follow the instructions provided for any remedies.
- **Online Shopping:** If purchased online, ensure that the seller complies with safety regulations as outlined by EU laws.
- **Special Consumer Focus:** This product is not intended for use by children. Keep out of reach of minors.
- **EU Contact Point:** For safety inquiries, refer to the contact information provided by your retailer or manufacturer.
- **Rapid Alerts:** Stay informed about product safety by checking updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the surface to which the tape will be applied is clean and dry to promote adhesion.
- Avoid using the tape in environments where it may be exposed to extreme temperatures or chemicals.
- Do not use the tape for any purpose other than its intended use, which is to protect surfaces during blasting operations.
- Inspect the tape regularly for signs of wear or damage. Replace if the adhesive is not holding or if the tape is frayed.
- Always wear appropriate personal protective equipment (PPE) when operating blasting equipment, including safety goggles and gloves.

Instructions for Installation and Usage

1. Preparation:

- Clean the surface of the item to be protected using a suitable cleaner. Ensure it is free from dust, oil, and moisture.
- Allow the surface to dry completely.

2. Application:

- Cut a length of tape using a sharp knife blade. Ensure the cut is straight for better adhesion.
- Apply the tape firmly to the surface, smoothing out any bubbles or wrinkles as you go.
- For corners or edges, trim the tape to fit snugly without overlapping.

3. During Use:

- Monitor the tape during blasting operations. If you notice any peeling or lifting, stop the process and reapply the tape as necessary.
- Do not exceed the recommended blast pressure of 100 psi, as this may compromise the integrity of the tape.

4. PostUse:

- Carefully remove the tape after the blasting process is complete. Pull slowly to avoid damaging the underlying surface.
- Dispose of used tape in accordance with local waste disposal regulations.

Disposal Instructions

- Dispose of the tape in accordance with local regulations. Do not dispose of in regular household waste if it is contaminated with hazardous materials.
- Check with your local waste management authority for specific disposal guidelines related to PVC materials.

Contact Information for Further Support

For any questions or concerns regarding the use of this product, please refer to the contact information provided by the retailer or manufacturer at the time of purchase. Ensure to keep this guide for future reference.

Thank you for choosing BEDDING/MASKING TAPE. Your safety and satisfaction are our top priorities.
