

# **BEDDING/MASKING TAPE, 1"**

[Gunsmith Tools & Supplies](#) > [Stock Work & Finishing](#) > [Stock Bedding Accessories](#) > [Bedding Tape](#)

## **Extra-Heavy Duty For Abrasive Blasting**

Easily protects the carefully polished sides of 1911 Auto Slides, pistol frames or shotgun and rifle receivers from abrasive grit in the blast cabinet. High-density, PVC tape, with extra sticky adhesive, stays put and will not peel back when subjected to blast pressures as high as 100 psi and media as coarse as 60 mesh sand. Cuts and trims easily with a sharp knife blade.

# Safety Instruction Guide for BEDDING/MASKING TAPE

## Introduction

Thank you for choosing the BEDDING/MASKING TAPE, 1". This product is designed to protect the polished surfaces of firearms during blasting operations. To ensure safe and effective use, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's recommendations.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check the product for any signs of damage or wear before use.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - The adhesive may cause skin irritation in sensitive individuals.
  - Improper use may lead to inadequate protection of surfaces.
- **Avoiding Hazards:**
  - Do not apply the tape to surfaces that are not clean and dry.
  - Avoid contact with eyes and skin. In case of contact, rinse thoroughly with water.
  - Use the tape only within the specified temperature and pressure limits.
- **Age and Audience Specific Warnings:**
  - This product is not intended for use by children. Adult supervision is recommended during use.

## Instructions for Installation and Usage

### 1. Preparation:

- Clean the surface where the tape will be applied to ensure it is free from dust, grease, and moisture.
- Cut the desired length of tape using a sharp knife blade.

### 2. Application:

- Peel off the backing of the tape carefully.
- Press the tape firmly onto the surface, ensuring there are no air bubbles.
- For best results, apply the tape in a single, smooth motion.

### 3. Usage:

- The tape is designed to withstand blast pressures up to 100 psi and coarse media such as 60 mesh sand.
- Monitor the tape during use to ensure it remains securely in place.

### 4. Removal:

- To remove the tape, gently peel it away from the surface.
- If adhesive residue remains, clean it with an appropriate solvent.

## **Disposal Instructions**

- Dispose of any unused tape and packaging materials in accordance with local regulations.
- Do not dispose of the product in household waste. Check for recycling options in your area.

## **Contact Information for Further Support**

For inquiries regarding safety or product information, please refer to the manufacturer's contact details provided with the product packaging.

Thank you for your attention to these safety instructions. Your safety is our priority.
