

SQUIB ROD - BROWNELLS 10MM, 40/41 CALIBER SQUIB ROD 8" LONG 2 PACK

[Gunsmith Tools](#) > [Handgun Tools](#) > [Stuck Case Removers](#)

No-Mar Brass Rod Knocks Stuck Bullets Out Of Bores

Don't let a stuck bullet from a "squib" or weak load cut short a shooting session. Far superior to other rods or makeshift punches, this non-marring brass rod fits the bore closely, can't wedge between bullet nose and rifling. Each rod is drilled and tapped to thread onto a Dewey cleaning rod; very handy for knocking stuck bullets out of rifle barrels.

SQUIB ROD BROWNELLS 10MM, 40/41 CALIBER

SQUIB ROD SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the SQUIB ROD BROWNELLS 10MM, 40/41 CALIBER SQUIB ROD. This product is designed to assist in safely removing stuck bullets from firearms. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that you are familiar with the operation of your firearm before using this product.
- Always handle firearms with care and treat them as if they are loaded.
- Keep the SQUIB ROD out of reach of children and unauthorized users.
- Inspect the SQUIB ROD for any damage before use; do not use if damaged.
- Always wear appropriate safety gear, including eye protection, when using this product.
- Follow all local laws and regulations regarding firearms and ammunition.

Specific Safety Precautions for Use

- Only use the SQUIB ROD with firearms that match the specified calibers: 41 Caliber (.410.412) and 40/10 mm (.400.401).
- Do not attempt to use the SQUIB ROD with any other calibers or firearms not specified.
- Ensure that the firearm is unloaded before attempting to remove a stuck bullet.
- Do not force the SQUIB ROD into the bore; it should fit snugly without excessive pressure.
- If the stuck bullet does not come out easily, do not continue to force it; seek professional assistance.
- Always work in a wellventilated area to avoid inhaling any debris that may be dislodged during the process.

Instructions for Installation and Usage

1. Preparation:

- Ensure your firearm is completely unloaded.
- Gather necessary tools, including the SQUIB ROD and a compatible Dewey cleaning rod.

2. Attaching the SQUIB ROD:

- Take the SQUIB ROD and thread it onto the Dewey cleaning rod using the provided 832 to 1228 adapters if needed.

3. Removing the Stuck Bullet:

- Carefully insert the SQUIB ROD into the bore of the firearm, ensuring it is aligned with the stuck bullet.
- Gently push the SQUIB ROD until it makes contact with the bullet.
- Apply steady pressure to dislodge the bullet. If resistance is met, stop and reassess the situation.

4. PostUse:

- After successfully removing the stuck bullet, clean the SQUIB ROD and store it in a safe place.
- Inspect the firearm to ensure no damage has occurred during the process.

Disposal Instructions

- Dispose of any materials that are no longer usable or have been contaminated during the process according to local regulations.
- Do not dispose of the SQUIB ROD in regular household waste. Instead, follow local guidelines for metal recycling or hazardous waste disposal.

Contact Information for Further Support

For any safety inquiries or concerns regarding the SQUIB ROD, please consult your local retailer or manufacturer. It is important to ensure that you have access to support and information regarding the safe use of this product.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience when using the SQUIB ROD BROWNELLS 10MM, 40/41 CALIBER SQUIB ROD. Always prioritize safety and do not hesitate to seek professional assistance when needed. Thank you for your attention to these important guidelines.
