Safety Instruction Guide for Aluminum Oxide Abrasive Blasting Grit

Introduction

Thank you for choosing the Aluminum Oxide Abrasive Blasting Grit. This product is designed to provide effective surface preparation for metal surfaces, allowing you to achieve the desired cosmetic effects. It is important to follow the safety guidelines and instructions provided in this document to ensure safe and effective use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Keep the product out of reach of children and vulnerable individuals.
- Always wear appropriate personal protective equipment (PPE) when using this product, including safety goggles, gloves, and a dust mask.
- Be aware of your surroundings and ensure proper ventilation in the workspace to avoid inhalation of dust.
- In case of any adverse reactions or accidents, seek medical attention immediately.
- Report any unsafe products or incidents to local authorities or the appropriate safety contact.

Specific Safety Precautions for Use

• Hazard Identification

- Inhalation of dust may cause respiratory irritation.
- Skin contact may cause irritation or allergic reactions.
- Eye contact can result in serious damage.

• Avoiding Hazards

- Always use in a wellventilated area or with appropriate dust extraction systems.
- Avoid direct skin contact; use gloves and protective clothing.
- Use safety goggles or face shields to protect your eyes.
- Do not eat, drink, or smoke while using the product to prevent ingestion of dust.

Instructions for Installation and Usage

• Preparation

- Ensure the work area is clean and free from any flammable materials.
- Gather all necessary tools and personal protective equipment before starting.

• Using the Product

- Open the screwtop jar or snaptop pail carefully to avoid spillage.
- Pour the desired amount of aluminum oxide abrasive grit into the blasting equipment according to the manufacturer's instructions.
- Adjust the blasting equipment settings according to the desired effect and type of surface being treated.
- Begin the blasting process, maintaining a safe distance from the surface being treated to avoid damage and ensure even application.

• PostUse

- After use, clean the work area thoroughly to remove any residual grit.
- Store the product in a cool, dry place, securely closed to prevent moisture absorption.

Disposal Instructions

- Dispose of any unused product and empty containers in accordance with local regulations.
- Do not dispose of the product in household waste. Check with local waste management authorities for proper disposal methods.
- Ensure that all waste materials are handled safely and in compliance with applicable environmental regulations.

Contact Information for Further Support

For safety inquiries or concerns regarding the product, please refer to the relevant EU-based contact point or safety authority. Always stay informed about product recalls and safety updates through the EU's Safety Gate platform.

By following these safety instructions and guidelines, you can ensure a safe and effective experience while using the Aluminum Oxide Abrasive Blasting Grit. Thank you for your attention to safety!
