Premium Leather; Extra Heavy Hooks; Stitched Keepers; U.S. Made; 6" Longer-54" Front Strap Increases Useable Length; Available In Tan Or Black

If you love fine leather, fine craftsmanship and a superbly functional, useful sling, our new Competitor Plus is going to make you extremely happy! What you get is a no-compromise reproduction of the original 1907 Military Sling; the one that's become the standard among hi-power service rifle shooters and many knowledgeable hunters; the one that's sought after by collectors and restorers of pre-WWII military firearms and the one that's carried more guns, more miles on more shoulders than darn near any other. Ours has all the good stuff: 1) It's all U.S. made of the finest, oak-tanned, top grain, U.S. steer hide. 2) It's fitted with thick, forged, blued steel hooks. 3) Each hook is attached with three rivets. 4) The Keepers are stitched and fit TIGHT! Once we eliminated all the shortcomings of the current crop of '07 copies, we convinced a sling maker that folks who use their guns really do want better not cheaper. Once the maker believed, they gave us suggestions concerning the leather. Ooohh, the leather! It's absolutely wonderful. A full heavy-weight, 9-10 ounce leather, tanned correctly for sling use to give maximum flexibility, stability and toughness without stretching or being oily. The tanning makes the Competitor Plus Sling leather what it is. The process starts with a complete hide that's shaved just enough to make it even thickness throughout. Then it's painstakingly tanned using oak tannage, NOT chromic salts. (Chromic salts cause tarnish and corrosion on any metal the leather touches.) Finally, the smooth, burnished finish which shows off the natural grain of this high-grade leather. All this time and effort means Competitor Plus Slings can bend and twist for a tight grip with no splitting or cracking, even across the holes, with no more than the barest minimum of medium tanning oil being added during the process. Your careful adjustments and precise shooting position won't be fouled up by a rubbery sling. Each extra thick, blued steel hook is locked onto the leather with three hand-hammered, copper rivets. The extra steel keeps the hooks from bending under the extreme pressure created when you lock into position. And, the hooks fit their holes TIGHTLY...no slop to mess up a hard hold and no accidental unhookings. Even the keepers are designed as part of a working sling. Since they absolutely must fit and grab the straps tightly, ours are skived at a taper, overlapped and then glued and stitched with 5-cord waxed linen thread. They'll hold your adjustments! The end result is a sling that gives you so much more: more service for so much longer as a traditional field sling; more authenticity as a replacement for restorations; plus more, higher match scores by eliminating a concentration-breaking source of problems. You can spend your time glassing for game, doping the wind or paying attention to sight picture and trigger squeeze instead of fiddling with the sling. This level of exceptional quality is a little more expensive, but we honestly believe you'll agree it's more than worth it. Our Competitor Plus sling with sixteen numbered reference points makes it easy for you to return to your sling setting for each shooting position.

Attributes

- Name: COMPETITOR PLUS SLING WITH NUMBERS, TAN

Competitor Plus Sling Safety Instructions

Introduction

Thank you for choosing the Competitor Plus Sling with Numbers. This sling is designed for optimal performance and safety. To ensure a safe and enjoyable experience, please read and follow these safety instructions carefully.

General Safety Guidelines

- Always inspect the sling before use for any signs of damage or wear. Do not use if any defects are found.
- Ensure that the sling is properly attached to your firearm before use. An improperly attached sling can lead to accidents.
- Keep the sling away from children and unauthorized users. It is not a toy and should be used only by individuals trained in firearm safety.
- Be aware of your surroundings when using the sling. Ensure that you have a clear line of sight and that no one is in the vicinity of your shooting area.
- Do not exceed the recommended weight limit of the sling. Excessive weight can lead to failure and may cause injury.
- Follow all local laws and regulations regarding the use of firearms and accessories.

Specific Safety Precautions for Use

- When adjusting the sling, ensure that your hands are clear of any moving parts to avoid pinching or injury.
- Always maintain a proper grip on your firearm while using the sling to prevent accidental discharge.
- Avoid using the sling in wet or slippery conditions, as this may affect your grip and control.
- Do not use the sling for purposes other than intended. It is designed specifically for use with firearms.
- If you notice any unusual wear or damage during use, discontinue use immediately and consult a qualified professional.

Instructions for Installation and Usage

1. Installation of the Sling:

- Ensure that your firearm is unloaded before attaching the sling.
- Locate the attachment points on your firearm.
- Slide the sling hooks into the designated attachment points until they click securely into place.
- Adjust the sling length to fit your preferred shooting position.

2. Using the Sling:

- To use the sling, place it over your shoulder and under your arm, ensuring it is snug but comfortable.
- Adjust the keepers to secure the sling in place, ensuring they grip the straps tightly.
- When aiming, maintain a firm grip on your firearm and use the sling for added stability.

3. Adjusting the Sling:

- To adjust the length, slide the keepers to your desired position.
- Ensure that the adjustments are secure before use.

4. PostUse Care:

- After use, inspect the sling for any signs of wear or damage.
- Clean the leather with a soft cloth to remove dirt and moisture.
- Store the sling in a cool, dry place away from direct sunlight to prevent deterioration.

Disposal Instructions

- When disposing of the sling, ensure that it is done in an environmentally responsible manner.
- Leather products can often be recycled. Check with local recycling facilities for options.
- If the sling is damaged beyond repair, dispose of it in accordance with local waste disposal regulations.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the Competitor Plus Sling, please refer to the manufacturer's contact information provided with your product.

By following these guidelines, you will help ensure your safety and the safety of others while using the Competitor Plus Sling. Enjoy your shooting experience!
