

NICKEL-PLATED REM 700 TRIGGERGUARD SCREWS - BROWNEllS LONG TRIGGERGUARD ALLEN SCREWS FOR REMINGTON 700 ADL, NICKEL

[Rifle Parts](#) > [Triggers Parts](#) > [Trigger Guard Parts](#) > [Trigger Guard Screws](#)

Don't Get Caught Short When Bedding Rifle Actions In Aftermarket Stocks

Nickel plated screws blend visually with Remington 700 stainless steel actions. Approximately .250" longer than the factory screws for greater flexibility when bedding in synthetic or wood stocks with thick, cross-sectional depth. Allen head sockets allow repeatable torque settings on match or target rifles.

Attributes

- Name: [BROWNEllS LONG TRIGGERGUARD ALLEN SCREWS FOR REMINGTON 700 ADL, NICKEL](#)

Safety Instruction Guide for NickelPlated Rem 700 Triggerguard Screws

Introduction

Thank you for choosing the NickelPlated Rem 700 Triggerguard Screws from Brownells. This guide provides essential safety instructions and recommendations to ensure the safe use and installation of your product. Please read this guide carefully before use.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the screws and avoid any misuse that may lead to accidents.
- **Enhanced Recalls:** Stay informed about any product recalls. Register your purchase if applicable.
- **Online Shopping:** If purchased online, ensure the platform complies with safety requirements.
- **Special Consumer Focus:** Keep the product out of reach of children and vulnerable individuals.
- **EU Contact Point:** For safety inquiries, contact the designated EUbased support.
- **Rapid Alerts:** Monitor updates on unsafe products via the EU Safety Gate system.

Specific Safety Precautions for Use

- **Avoid OverTightening:** Overtightening can lead to stripped threads and potential failure of the triggerguard.
- **Use Proper Tools:** Always use appropriate tools (e.g., Allen wrench) to ensure correct installation.
- **Check for Damage:** Inspect screws for any signs of damage or wear before installation.
- **Wear Safety Gear:** Use safety glasses and gloves when handling tools and screws to prevent injury.
- **Ensure Compatibility:** Verify that the screws are compatible with your Remington 700 model (ADL or BDL).

Instructions for Installation and Usage

1. Preparation:

- Gather necessary tools: Allen wrench, screwdriver, and safety gear.
- Ensure the work area is clean and welllit.

2. Installation:

- Remove any existing screws from the triggerguard using the appropriate tool.
- Inspect the triggerguard for any obstructions or debris before installing new screws.
- Select the correct screw size for your application:
 - 1/4x28, 2.270" long
 - 1/4x28, 1.740" long
 - 836x2.250" long
- Insert the screw into the triggerguard hole and handtighten initially.
- Use the Allen wrench to tighten the screw to the recommended torque settings, ensuring not to overtighten.

3. PostInstallation Check:

- After installation, check that all screws are secure and that the triggerguard is properly aligned.
- Test the triggerguard for stability before using the firearm.

Disposal Instructions

- Dispose of any old screws and packaging materials responsibly.
- Follow local regulations for the disposal of metal and plastic materials.
- If in doubt, contact local waste management for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the NickelPlated Rem 700 Triggerguard Screws, please refer to your retailer or designated EU contact point for assistance.

Thank you for your attention to these safety instructions. Your safety is our priority.
