

STANDARD LINE NYLON RIFLE BORE BRUSHES - BROWNELLS

STANDARD LINE BRUSH, NYLON, .20 CALIBER RIFLE, 3 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

Solvent Resisting Nylon

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 caliber 5-40 threads, all others 8-32 thread.

Safety Instruction Guide for STANDARD LINE NYLON RIFLE BORE BRUSHES

Introduction

Thank you for choosing the STANDARD LINE NYLON RIFLE BORE BRUSHES by BROWNELLS. This guide provides essential safety instructions and recommendations to ensure the safe and effective use of this product. Please read and follow these instructions carefully to avoid any potential hazards.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose, which is cleaning rifle bores.
- Always handle the bore brushes with care to avoid injury.
- Keep the brushes out of reach of children and vulnerable individuals.
- Inspect the brushes before each use for any signs of damage or wear.
- If you notice any damage, discontinue use and replace the product.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use the bore brushes in a wellventilated area.
- Wear safety goggles to protect your eyes from debris when cleaning.
- Avoid using excessive force when cleaning to prevent damaging the rifle bore.
- Do not use the brushes on any surfaces other than intended.
- Ensure that the rifle is unloaded and safe before using the bore brushes.
- Follow the manufacturer's recommendations for cleaning solutions and methods.

Instructions for Installation and Usage

1. Preparation:

- Ensure the rifle is unloaded and the chamber is clear.
- Gather necessary cleaning supplies, including cleaning solutions, a cleaning rod, and a patch holder.

2. Attaching the Brush:

- Select the appropriate bore brush for your caliber (e.g., .20 caliber).
- Attach the brush securely to the cleaning rod using the threaded end.

3. Cleaning Process:

- Apply a small amount of cleaning solution to the brush.
- Insert the brush into the rifle bore gently.
- Rotate the brush as you push it through the bore to ensure thorough cleaning.
- Repeat the process as necessary, depending on the level of fouling.

4. PostCleaning:

- After cleaning, remove the brush and clean it with a suitable solvent.
- Store the brush in a dry place, away from moisture and heat.

Disposal Instructions

- Dispose of the bore brushes in accordance with local regulations.
- Do not dispose of the brushes in regular household waste if they are contaminated with hazardous materials.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support
