

STANDARD LINE STAINLESS STEEL CENTER FIRE RIFLE BORE BRUSHES - BROWNELLS STANDARD LINE STAINLESS 243/25 CALIBER RIFLE BRUSH 3 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

Tough Stainless Steel

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Stainless Steel Bore Brush - For severely leaded, fouled or rusted bores, the aggressive cleaning action of a stainless steel brush can help get them clean. However, the aggressive action accelerates wear, and regular use can shorten barrel life. SPECS: Bristles: Available in stainless steel. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 cal. 5-40 threads, all others 8-32 thread.

Safety Instruction Guide for STANDARD LINE STAINLESS STEEL CENTER FIRE RIFLE BORE BRUSHES

Introduction

Thank you for choosing the STANDARD LINE STAINLESS STEEL CENTER FIRE RIFLE BORE BRUSHES. This guide provides important safety information and instructions to ensure safe and effective use of the product. Please read this guide carefully before using the bore brushes.

General Safety Guidelines

- Ensure that the bore brushes are used only for their intended purpose as described in the product specifications.
- Always handle the bore brushes with care to prevent injury.
- Keep the bore brushes out of reach of children and vulnerable individuals.
- Inspect the bore brushes before each use for any signs of damage or wear. Do not use damaged brushes.
- Store the bore brushes in a dry place to prevent rust and deterioration.
- Be aware of the potential hazards associated with using stainless steel brushes, including the risk of scratching or damaging the bore.

Specific Safety Precautions for Use

- Use protective eyewear when cleaning firearm bores to prevent metal particles from causing eye injury.
- Avoid excessive force when using the bore brushes to prevent damage to the firearm's barrel.
- Do not use the bore brushes on bores that are not compatible with stainless steel cleaning tools.
- After use, clean the bore brushes thoroughly and allow them to dry completely before storage.
- If you experience any allergic reactions or skin irritation while using the brushes, discontinue use immediately and consult a healthcare professional.

Instructions for Installation and Usage

1. Selecting the Right Brush:

- Ensure that you choose the correct caliber bore brush (243/6 mm or 25 Caliber) for your firearm.

2. Attaching the Brush:

- Screw the bore brush onto the cleaning rod using the appropriate thread size (540 for .17 and .20 cal; 832 for all others).
- Ensure the brush is securely attached before use.

3. Using the Brush:

- Insert the brush into the bore from the chamber end.
- Use a smooth, steady motion to push the brush through the bore and back out.
- Repeat this process several times to achieve effective cleaning.
- Avoid pulling the brush back through the bore as this may cause damage.

4. PostCleaning:

- After cleaning, inspect the bore for cleanliness.

- Store the bore brushes in a safe, dry place.

Disposal Instructions

- Dispose of used or damaged bore brushes in accordance with local regulations.
- Do not dispose of the bore brushes in household waste if they are deemed hazardous. Check with local waste management for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the use of the STANDARD LINE STAINLESS STEEL CENTER FIRE RIFLE BORE BRUSHES, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's website.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective cleaning experience with your bore brushes. Thank you for your attention to safety and for choosing our product.
