

# **STANDARD LINE STAINLESS STEEL HANDGUN BORE BRUSHES - BROWNELLS STANDARD LINE BRUSH, 10MM/.40/.41 CAL HANDGUN, SS, 3 PACK**

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Stainless Steel Bore Brush

- For severely leaded, fouled or rusted bores, the aggressive cleaning action of a stainless steel brush can help get them clean. However, the aggressive action accelerates wear, and regular use can shorten barrel life. SPECS

Bristles: Available in stainless steel. Shank: Steel, looped and wound. Overall length: 2-1/8" (7.3cm) Threads: 8-32 male

# **Safety Instruction Guide for STANDARD LINE STAINLESS STEEL HANDGUN BORE BRUSHES**

## **Introduction**

Thank you for choosing the STANDARD LINE STAINLESS STEEL HANDGUN BORE BRUSHES by BROWNELLS. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. Please read this document carefully before using the bore brushes.

## **General Safety Guidelines**

- Ensure safe handling and use of the bore brushes to avoid injury or damage.
- These bore brushes are designed for cleaning handgun bores and should only be used for their intended purpose.
- Always keep the bore brushes out of reach of children and vulnerable individuals.
- Regularly inspect the brushes for wear and damage before each use.
- If the brushes show signs of damage, discontinue use immediately and dispose of them properly.

## **Specific Safety Precautions for Use**

- Use appropriate personal protective equipment (PPE) such as gloves and safety goggles when handling the brushes.
- Avoid aggressive scrubbing that could damage the bore of the firearm.
- Do not use the stainless steel brush on firearms with delicate finishes or coatings.
- Ensure that the firearm is unloaded and pointed in a safe direction before using the bore brush.
- Follow the manufacturer's instructions for cleaning and maintenance of your firearm.

## **Instructions for Installation and Usage**

### **1. Preparation**

- Ensure the firearm is unloaded and in a safe condition.
- Gather all necessary cleaning supplies, including the bore brush, cleaning rod, and solvent.

### **2. Attaching the Bore Brush**

- Select the appropriate bore brush for your firearm caliber (41 Caliber or 40/10 mm).
- Attach the bore brush to a cleaning rod with an 832 male thread.
- Ensure that the brush is securely fastened to prevent detachment during use.

### **3. Cleaning Process**

- Apply a suitable cleaning solvent to the bore brush.
- Insert the brush into the bore and push it through from the chamber to the muzzle.
- Repeat this process several times to effectively clean the bore.
- After cleaning, use a dry patch to remove any remaining solvent and debris.

### **4. PostCleaning Care**

- Inspect the bore brush for any signs of wear or damage.
- Clean the bore brush with solvent and store it in a dry place.

## **Disposal Instructions**

- Dispose of worn or damaged bore brushes responsibly.
- Do not dispose of them in general waste. Check local regulations for proper disposal methods for metal products.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or product information, please refer to the contact details provided by the manufacturer or retailer where you purchased the product.

By following these safety instructions, you can ensure a safe and effective cleaning experience with your STANDARD LINE STAINLESS STEEL HANDGUN BORE BRUSHES. Always prioritize safety and proper handling to maintain the longevity of both your firearm and the cleaning tools.
