

# STANDARD LINE NYLON RIFLE BORE BRUSHES - BROWNELLS

## STANDARD LINE BRUSH, NYLON, 6MM RIFLE BRUSH, 3 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

### Solvent Resisting Nylon

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 caliber 5-40 threads, all others 8-32 thread.

# Safety Instruction Guide for STANDARD LINE NYLON RIFLE BORE BRUSHES

## Introduction

Thank you for choosing the STANDARD LINE NYLON RIFLE BORE BRUSHES from BROWNELLS. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this document carefully before using the bore brushes to understand the safety guidelines and precautions.

## General Safety Guidelines

- Always handle the bore brushes with care to avoid injury.
- Ensure that the brushes are used only for their intended purpose.
- Keep the bore brushes out of reach of children and vulnerable individuals.
- Regularly inspect the brushes for any signs of damage or wear before use.
- Follow all local laws and regulations regarding the use of firearms and cleaning equipment.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - The bristles of the bore brushes can be sharp and may cause injury if handled improperly.
  - Using the brushes on the wrong caliber or type of firearm can lead to damage to the firearm or ineffective cleaning.
- **Avoiding Hazards:**
  - Always wear safety glasses when using bore brushes to protect your eyes from debris.
  - Do not use excessive force when cleaning to prevent bristle breakage or damage to the firearm.
  - Ensure that the firearm is unloaded and pointed in a safe direction during the cleaning process.
  - Store the brushes in a safe place to prevent accidental injury.

## Instructions for Installation and Usage

- **Installation:**
  - Select the appropriate bore brush for your firearm caliber.
  - Ensure that the threads of the brush match the cleaning rod you are using.
  - Attach the bore brush securely to the cleaning rod.
- **Usage:**
  - Insert the bore brush into the barrel of the firearm.
  - Use a smooth, backandforth motion to clean the bore. Do not twist or force the brush.
  - After cleaning, remove the bore brush and inspect it for wear or damage.
  - Clean the bore with a suitable solvent to remove any remaining debris.
  - Store the brushes in a dry place to prevent rust and damage.

## Disposal Instructions

- Dispose of any damaged or worn bore brushes in accordance with local waste disposal regulations.
- Do not dispose of the brushes in a manner that could pose a hazard to others or the environment.

## **Contact Information for Further Support**

For any safety inquiries or additional information regarding the use of STANDARD LINE NYLON RIFLE BORE BRUSHES, please refer to the official BROWNELLS website or contact your local distributor.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective cleaning experience with your STANDARD LINE NYLON RIFLE BORE BRUSHES. Always prioritize safety and proper handling to maintain the integrity of your firearm and your wellbeing.
