## STANDARD LINE BRUSH, NYLON, .270 CALIBER RIFLE, 12 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

### Solvent Resisting Nylon

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 caliber 5-40 threads, all others 8-32 thread.

# Safety Instruction Guide for STANDARD LINE NYLON RIFLE BORE BRUSHES

## Introduction

Thank you for choosing the STANDARD LINE NYLON RIFLE BORE BRUSHES by BROWNELLS. This guide provides essential safety instructions and information to ensure the safe and effective use of the product. Please read this guide carefully before using the bore brushes.

## General Safety Guidelines

- Ensure safe use of the bore brushes by following all instructions provided.
- Be aware of potential hazards associated with improper use.
- Always supervise children when using this product to prevent accidents.
- If you notice any damage or defects, do not use the product and contact the manufacturer.
- Regularly check for product recalls or safety updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always use the bore brushes in accordance with the manufacturer's instructions.
- Avoid using excessive force when cleaning to prevent damage to the bore or brush.
- Do not use the bore brushes on hot surfaces or with flammable materials.
- Store the brushes in a dry place away from direct sunlight and extreme temperatures.
- Do not leave the brushes unattended in areas accessible to children.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure that the firearm is unloaded and safe to handle before cleaning.
- Gather all necessary cleaning supplies, including the bore brush, cleaning rod, and solvent.

### 2. Installation

- Attach the bore brush securely to the cleaning rod.
- Ensure that the threads of the rod and brush match (e.g., .17 and .20 caliber use 540 threads, all others use 832 thread).

### 3. Usage

- Insert the bore brush into the barrel of the firearm.
- Gently push the brush through the barrel, using a smooth and steady motion.
- Pull the brush back out without twisting to avoid damaging the bore.
- Repeat the process as necessary, depending on the level of fouling.

### 4. Cleaning the Brushes

- After use, rinse the bore brush in warm water to remove any fouling or solvent.
- Allow the brush to air dry completely before storing.

## Disposal Instructions

- Dispose of the bore brushes in accordance with local regulations.

- Do not dispose of the brushes in household waste if they are contaminated with hazardous materials.
- Check with local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use or safety of the STANDARD LINE NYLON RIFLE BORE BRUSHES, please refer to the manufacturer's contact information provided with your product packaging.

By following these safety instructions, you can ensure a safe and effective cleaning experience with your STANDARD LINE NYLON RIFLE BORE BRUSHES. Thank you for your attention to these important guidelines.
