

STANDARD LINE NYLON RIFLE BORE BRUSHES - BROWNELLS

STANDARD LINE BRUSH, NYLON, .30 CALIBER RIFLE, 3 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

Solvent Resisting Nylon

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 caliber 5-40 threads, all others 8-32 thread.

Safety Instruction Guide for STANDARD LINE NYLON RIFLE BORE BRUSHES

Introduction

Thank you for choosing the STANDARD LINE NYLON RIFLE BORE BRUSHES from BROWNELLS. This guide provides important safety information and instructions for the proper use of this product. Please read and follow these guidelines to ensure safe and effective use.

General Safety Guidelines

- Ensure that the product is suitable for your specific firearm caliber before use.
- Always handle firearms and cleaning tools with respect and caution.
- Keep the bore brushes out of reach of children and vulnerable individuals.
- Regularly inspect the bore brushes for wear or damage before each use. Do not use damaged brushes.
- Use the bore brushes only for their intended purpose: cleaning the bore of firearms.

Specific Safety Precautions for Use

- Always ensure that your firearm is unloaded before cleaning.
- Do not use the bore brush if you are unsure of the cleaning procedure for your specific firearm.
- Avoid using excessive force when cleaning to prevent damage to the bore or the brush.
- Store the brushes in a dry, clean place to prevent contamination or damage.
- Follow the manufacturer's recommendations for cleaning solutions and solvents.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary cleaning supplies, including the bore brush, cleaning rod, and cleaning solvent.
- Ensure that your firearm is in a safe condition, with no ammunition present.

2. Attaching the Bore Brush:

- Select the appropriate bore brush for your firearm caliber (30 Caliber / .308).
- Attach the bore brush to the cleaning rod using the threaded end. Ensure it is securely fastened.

3. Cleaning Procedure:

- Apply a small amount of cleaning solvent to the bore brush.
- Insert the brush into the bore from the chamber end (if applicable) and push it through to the muzzle. Avoid reversing direction while the brush is in the bore.
- Repeat this process several times to effectively remove fouling.
- After cleaning, remove the brush and clean the bore with a dry patch to remove any remaining solvent.

4. PostCleaning:

- Inspect the bore for any remaining fouling or debris.
- Store the bore brush in a clean, dry location to maintain its condition.

Disposal Instructions

- Dispose of worn or damaged bore brushes in accordance with local regulations.
- Do not dispose of the brushes in regular household waste if they are contaminated with hazardous materials.

Contact Information for Further Support

For any questions or concerns regarding the use of the STANDARD LINE NYLON RIFLE BORE BRUSHES, please refer to the product packaging for contact details or visit the manufacturer's website for more information.

Conclusion

By following these safety instructions and guidelines, you can ensure the safe and effective use of the STANDARD LINE NYLON RIFLE BORE BRUSHES. Always prioritize safety when handling firearms and cleaning equipment. Thank you for your attention to these important safety measures.
