

# STANDARD LINE NYLON RIFLE BORE BRUSHES - BROWNELLS

## STANDARD LINE BRUSH, NYLON, .30 CALIBER RIFLE, 12 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

### Solvent Resisting Nylon

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 caliber 5-40 threads, all others 8-32 thread.

### Attributes

# Safety Instruction Guide for STANDARD LINE NYLON RIFLE BORE BRUSHES

## Introduction

Thank you for choosing the STANDARD LINE NYLON RIFLE BORE BRUSHES by BROWNELLS. This guide provides essential safety information and instructions to ensure the safe and effective use of our product. Please read this manual carefully before use.

## General Safety Guidelines

- Always use the bore brushes as intended to avoid injury or damage.
- Keep the product out of reach of children and vulnerable individuals.
- Ensure that the product is used only by individuals who are familiar with firearms and their maintenance.
- Inspect the bore brush for any damage before each use. Do not use if damaged.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.

## Specific Safety Precautions for Use

- Use the bore brush only with compatible calibers as specified: 30 Caliber (.308) for the STANDARD LINE NYLON RIFLE BORE BRUSH.
- Avoid using excessive force while cleaning to prevent damage to the bore and the brush.
- Do not use the bore brush with harsh chemicals or solvents that are not recommended for use with nylon or steel.
- Always wear safety glasses to protect your eyes from debris that may be dislodged during cleaning.
- Ensure the firearm is unloaded and pointed in a safe direction before cleaning.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather all necessary cleaning supplies, including the bore brush, cleaning rod, and any recommended cleaning solvents.

### 2. Installation:

- Attach the bore brush to the cleaning rod by screwing it into the threaded end. Ensure it is securely fastened.
- For .17 and .20 caliber brushes, use the 540 threads; for all others, use the 832 thread.

### 3. Usage:

- Insert the bore brush into the firearm's bore gently.
- Rotate the brush while pushing it through the bore to effectively clean the interior.
- Pull the brush back out slowly to avoid damaging the rifling.
- Repeat the process as necessary, cleaning the brush with a solvent as needed to remove fouling.

### 4. PostCleaning:

- After cleaning, remove the bore brush from the cleaning rod.
- Clean and store the bore brush in a dry place to prevent damage.

## **Disposal Instructions**

- Dispose of any worn or damaged bore brushes in accordance with local waste disposal regulations.
- Do not dispose of the brushes in a manner that could harm the environment.

## **Contact Information for Further Support**

For any questions or concerns regarding the STANDARD LINE NYLON RIFLE BORE BRUSHES, please refer to the contact information provided on the product packaging or visit the manufacturer's website for more resources.

By following these safety guidelines and instructions, you can ensure a safe and effective cleaning experience with your STANDARD LINE NYLON RIFLE BORE BRUSHES. Thank you for your attention to safety and responsible firearm maintenance.
