

# STANDARD LINE NYLON RIFLE BORE BRUSHES - STANDARD LINE BRUSH, NYLON, .35 CALIBER RIFLE, 12 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

## Solvent Resisting Nylon

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 caliber 5-40 threads, all others 8-32 thread.

# Safety Instruction Guide for STANDARD LINE NYLON RIFLE BORE BRUSHES

## Introduction

Thank you for choosing the STANDARD LINE NYLON RIFLE BORE BRUSHES. This guide provides essential safety instructions to help you use this product safely and effectively. Please read this guide carefully before use.

## General Safety Guidelines

- Ensure that the product is used according to the manufacturer's instructions.
- Keep the brushes out of reach of children and pets.
- Inspect the brushes regularly for signs of wear or damage before each use.
- Do not use the brushes for any purpose other than cleaning rifle bores.
- If any part of the brush appears damaged, discontinue use immediately.
- Report any unsafe product experiences to the relevant authorities.

## Specific Safety Precautions for Use

- Always wear protective eyewear when using bore brushes to prevent debris from entering your eyes.
- Use the brushes in a wellventilated area to avoid inhaling any cleaning materials or debris.
- Avoid applying excessive force when using the brushes to prevent damage to the rifle bore or the brushes themselves.
- Ensure that the rifle is unloaded and pointed in a safe direction before cleaning.
- Follow the manufacturer's recommendations for the cleaning materials used with the brushes.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the rifle is unloaded and safely secured.
- Select the appropriate bore brush for your caliber (e.g., .35 caliber).

### 2. Installation:

- Attach the bore brush to a cleaning rod with the correct thread size.
- For .17 and .20 caliber brushes, use 540 threads; for all others, use 832 threads.

### 3. Usage:

- Insert the bore brush into the rifle bore gently.
- Pull the brush through the bore with a smooth, steady motion.
- Repeat the process as necessary, ensuring to clean both directions if required.
- Clean the brush regularly to ensure optimal performance.

### 4. PostUse:

- After cleaning, remove the brush from the cleaning rod.
- Rinse the brush with water if it has been used with solvents and allow it to dry completely.
- Store the brushes in a dry, safe location away from children.

## **Disposal Instructions**

- Dispose of the brushes in accordance with local regulations.
- Do not dispose of the brushes in regular household waste if they are damaged or contain hazardous materials.
- Check with local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding the safety and use of the STANDARD LINE NYLON RIFLE BORE BRUSHES, please refer to your retailer or manufacturer for assistance.

By following these safety instructions, you can ensure a safe and effective cleaning experience with your STANDARD LINE NYLON RIFLE BORE BRUSHES. Thank you for prioritizing safety and compliance with the EU General Product Safety Regulation.
