

STANDARD LINE NYLON RIFLE BORE BRUSHES - BROWNELLS

STANDARD LINE BRUSH, NYLON, .44/.45 CALIBER RIFLE, 3 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

Solvent Resisting Nylon

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 caliber 5-40 threads, all others 8-32 thread.

Safety Instruction Guide for STANDARD LINE NYLON RIFLE BORE BRUSHES

Introduction

Thank you for choosing the STANDARD LINE NYLON RIFLE BORE BRUSHES from BROWNELLS. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before using the bore brushes to avoid any potential hazards.

General Safety Guidelines

- Always use the bore brushes as intended and in accordance with the instructions provided.
- Ensure that the brushes are kept out of reach of children and vulnerable individuals.
- Regularly inspect the brushes for any signs of wear or damage before use. Do not use damaged brushes.
- Be aware of the specific requirements for cleaning tools and materials based on the firearm type.
- Report any unsafe products or incidents to the relevant authorities promptly.
- Stay informed about recall notices and safety updates through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded and pointed in a safe direction before using the bore brushes.
- Use appropriate personal protective equipment (PPE) such as safety glasses when cleaning firearms.
- Avoid using excessive force when cleaning to prevent damage to the firearm or the brushes.
- Do not mix different cleaning chemicals unless specified by the manufacturer.
- Store the brushes in a dry place to prevent corrosion or damage to the bristles and shank.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is completely unloaded.
- Gather your cleaning supplies, including the bore brush, cleaning rod, and any cleaning solvents.

2. Installation:

- Attach the bore brush to the cleaning rod by screwing it onto the end securely.
- Ensure that the connection is tight to prevent the brush from detaching during use.

3. Usage:

- Insert the bore brush into the barrel of the firearm.
- Gently push the brush through the barrel, ensuring smooth and even strokes.
- Pull the brush back out of the barrel without twisting to avoid damage.
- Repeat the process as necessary, depending on the level of fouling.

4. Cleaning:

- After use, clean the bore brush with a suitable solvent to remove any residue.
- Allow the brush to dry completely before storing it.

Disposal Instructions

- Dispose of any damaged or worn brushes in accordance with local waste disposal regulations.

- Do not dispose of brushes in a manner that could pose a risk to the environment or public safety.

Contact Information for Further Support

For any inquiries regarding safety or productrelated questions, please refer to the EUbased contact point provided with your product packaging or visit the manufacturer's website for additional support resources.

Thank you for prioritizing safety while using the STANDARD LINE NYLON RIFLE BORE BRUSHES. Your attention to these guidelines helps ensure a safe and effective cleaning experience.
