

# STANDARD LINE NYLON RIFLE BORE BRUSHES - BROWNELLS

## STANDARD LINE BRUSH, NYLON, .44/.45 CALIBER RIFLE, 12 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

### Solvent Resisting Nylon

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 caliber 5-40 threads, all others 8-32 thread.

# Safety Instruction Guide for STANDARD LINE NYLON RIFLE BORE BRUSHES

## Introduction

Thank you for choosing the STANDARD LINE NYLON RIFLE BORE BRUSHES by BROWNELLS. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the bore brushes.

## General Safety Guidelines

- Ensure that the bore brushes are used only for their intended purpose.
- Always keep bore brushes out of reach of children and vulnerable individuals.
- Inspect the bore brushes for any signs of damage before use. Do not use damaged brushes.
- Store the bore brushes in a dry and safe place to prevent damage and accidents.
- Follow all local laws and regulations regarding firearm maintenance and cleaning.

## Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when cleaning firearms.
- Avoid using excessive force when inserting or removing the bore brush to prevent damage to the firearm.
- Do not use the bore brushes with solvents or cleaners that are not recommended for use with nylon materials.
- Ensure that the firearm is unloaded and pointed in a safe direction before beginning any cleaning process.
- Be aware of the potential for lead exposure when cleaning firearms. Follow safety guidelines for lead handling.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded.
- Gather necessary cleaning supplies, including the bore brush, cleaning solvent, and patch holder.

### 2. Installation:

- Attach the bore brush to the cleaning rod.
- Ensure that the brush is securely fastened to prevent it from detaching during use.

### 3. Usage:

- Insert the bore brush into the firearm's barrel from the breech end, if applicable.
- Gently push the brush through the barrel. Do not force it.
- Pull the brush back through the barrel to remove fouling and debris.
- Repeat as necessary, depending on the level of fouling.
- After use, clean the bore brush with a suitable solvent and allow it to dry.

### 4. PostUsage:

- Store the bore brush in a safe place.
- Dispose of any used cleaning materials according to local regulations.

## **Disposal Instructions**

- Dispose of the bore brushes in accordance with local waste disposal regulations.
- Do not dispose of bore brushes in regular household waste if they are contaminated with hazardous materials.

## **Contact Information for Further Support**

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's website.

By following these guidelines and instructions, you can ensure the safe and effective use of the STANDARD LINE NYLON RIFLE BORE BRUSHES. Thank you for your attention to safety.
