

# STANDARD LINE NYLON RIFLE BORE BRUSHES - STANDARD LINE BRUSH, NYLON, .50 CALIBER RIFLE, 12 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

## Solvent Resisting Nylon

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 caliber 5-40 threads, all others 8-32 thread.

# Safety Instruction Guide for STANDARD LINE NYLON RIFLE BORE BRUSHES

## Introduction

Thank you for choosing the STANDARD LINE NYLON RIFLE BORE BRUSHES. This guide provides essential safety instructions to ensure the safe and effective use of these bore brushes. Please read this guide carefully before use to minimize risks and ensure optimal performance.

## General Safety Guidelines

- Ensure the product is used only for its intended purpose as specified.
- Always inspect the bore brushes before use for any signs of damage or wear.
- Keep the bore brushes out of reach of children and vulnerable individuals.
- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about recall updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use protective eyewear when cleaning rifle bores to prevent injury from debris.
- Avoid using excessive force when inserting or removing the bore brush to prevent damage to the rifle bore.
- Do not use the bore brush on firearms that are loaded or not properly secured.
- Ensure that the bore brush is compatible with your firearm caliber.
- Never leave the bore brush unattended while in use.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Gather all necessary materials, including the bore brush and cleaning rod.

### 2. Installation:

- Attach the bore brush to the cleaning rod by threading it securely into the rod's end.
- Ensure the connection is tight to prevent the brush from detaching during use.

### 3. Usage:

- Insert the bore brush into the rifle bore, ensuring it is aligned properly.
- Gently push the brush through the bore, using a smooth, steady motion.
- Pull the brush back out of the bore, and repeat as necessary for cleaning.
- After use, clean the bore brush with appropriate cleaning solutions and allow it to dry.

### 4. Postusage:

- Store the bore brushes in a cool, dry place, away from direct sunlight.
- Regularly inspect the brushes for wear and replace as needed.

## Disposal Instructions

- Dispose of the bore brushes in accordance with local regulations regarding waste disposal.

- Avoid disposing of the brushes in regular household waste if they are damaged or worn out.
- Check for recycling options in your area for metal components.
