

STANDARD LINE NYLON RIFLE BORE BRUSHES - BROWNELLS

STANDARD LINE BRUSH, NYLON, 6.5MM RIFLE, 12 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

Solvent Resisting Nylon

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 caliber 5-40 threads, all others 8-32 thread.

Safety Instruction Guide for STANDARD LINE NYLON RIFLE BORE BRUSHES

Introduction

Thank you for choosing the STANDARD LINE NYLON RIFLE BORE BRUSHES by BROWNELLS. This guide provides essential safety information and instructions to ensure the safe use and maintenance of your bore brushes. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the bore brushes are used only for their intended purpose, which is cleaning rifle bores.
- Keep the product out of reach of children and vulnerable individuals.
- Always inspect the bore brushes before use for any signs of wear or damage.
- Use protective eyewear when cleaning firearms to prevent injury from debris.
- Do not exceed the recommended usage limits to prevent damage to both the bore brushes and the firearm.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - The brushes may pose a risk of injury if used improperly.
 - Potential for scratches on the firearm's bore if excessive force is applied.
- **Avoiding Hazards:**
 - Use the brushes gently to avoid damaging the bore or the brushes themselves.
 - Do not use the brushes on any surfaces other than the intended firearm bores.
 - Ensure that the firearm is unloaded and pointed in a safe direction before cleaning.
- **Age or Audience Specific Warnings:**
 - This product is not intended for use by individuals under the age of 18 without adult supervision.

Instructions for Installation and Usage

- **Installation:**
 - Select the appropriate bore brush size for your firearm caliber.
 - Attach the bore brush to a cleaning rod with the correct thread size (e.g., .17 and .20 caliber 540 threads, all others 832 thread).
- **Usage:**
 - Insert the bore brush into the bore of the firearm.
 - Gently twist the cleaning rod to scrub the bore, ensuring even coverage.
 - Pull the brush through the bore without excessive force to avoid scratches.
 - Repeat the process as necessary, depending on the level of fouling.
- **Post Usage:**

- Clean the bore brush after use to remove any residue.
- Store the brushes in a dry, clean place away from moisture and direct sunlight.

Disposal Instructions

- Dispose of the bore brushes in accordance with local regulations.
- Do not dispose of in household waste if they are damaged or pose a risk.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please reach out to the designated contact point provided with your product packaging.

Thank you for your attention to these safety guidelines. Enjoy using your STANDARD LINE NYLON RIFLE BORE BRUSHES responsibly and safely.
