

STANDARD LINE NYLON RIFLE BORE BRUSHES - BROWNELLS

STANDARD LINE BRUSH, NYLON, 7MM RIFLE, 12 PACK

[Gun Cleaning & Chemicals](#) > [Brushes & Bore Snakes](#) > [Bore Brushes](#)

Solvent Resisting Nylon

Since darn near as many bore brushes get used in the shop as get sold, we've packed these custom-made, top quality brushes in bulk paks to make them more convenient and less expensive. The shank is one-piece, looped and wound (not two, twisted together and chopped off). Nylon Bore Brush - New generation bore cleaners attack copper and bronze-based bullet jacket fouling aggressively and are just as hard on bronze cleaning brushes. Our nylon brushes stand up to these super cleaners and won't cause accuracy-ruining scratches. One-piece, looped and wound steel shanks (except Black Powder (BP) series, .17 caliber, and .20 caliber, which have brass shanks). SPECS: Bristles: Available in nylon. Shank: Steel, looped and wound. Overall length: 3.27" (8.3cm) Threads: .17 and .20 caliber 5-40 threads, all others 8-32 thread.

Safety Instruction Guide for STANDARD LINE NYLON RIFLE BORE BRUSHES

Introduction

Thank you for choosing the STANDARD LINE NYLON RIFLE BORE BRUSHES from BROWNELLS. This guide provides essential safety instructions and information to ensure your safe and effective use of this product. Please read this guide carefully before using the bore brushes.

General Safety Guidelines

- Ensure that the bore brushes are used only for their intended purpose.
- Keep the brushes out of reach of children and vulnerable individuals.
- Regularly inspect the brushes for any signs of wear or damage before use.
- Do not use the brushes if they are damaged or if bristles are missing.
- Always follow the manufacturer's instructions for use and maintenance.
- Report any unsafe product experiences or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always wear appropriate eye protection when using bore brushes to prevent debris from entering the eyes.
- Use the brushes in a wellventilated area to avoid inhaling any cleaning agents or debris.
- Ensure that the firearm is unloaded and pointed in a safe direction before using the bore brushes.
- Avoid excessive force when using the brushes to prevent damage to the firearm's bore.
- Do not mix different cleaning agents when using the brushes, as this may lead to hazardous reactions.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is completely unloaded and in a safe condition.
- Gather all necessary cleaning supplies, including the bore brush, cleaning rod, and any cleaning solvents.

2. Attaching the Bore Brush

- Select the appropriate bore brush for your firearm caliber (e.g., 7mm).
- Attach the bore brush securely to the cleaning rod by screwing it in place.

3. Using the Bore Brush

- Insert the bore brush into the firearm's bore.
- Use a smooth, steady motion to push the brush through the bore from the chamber to the muzzle.
- Pull the brush back out without twisting to avoid damaging the rifling.
- Repeat as necessary, ensuring to clean the brush periodically to remove fouling.

4. PostUse Care

- After use, clean the bore brush with a suitable solvent to remove any residue.
- Store the brushes in a dry place, away from moisture and direct sunlight.

Disposal Instructions

- Dispose of any damaged or worn bore brushes in accordance with local regulations.
- Avoid disposing of brushes in regular household waste if they contain hazardous materials.
- Check local guidelines for proper disposal methods of cleaning agents and solvents.

Contact Information for Further Support

For any questions or concerns regarding the use of the STANDARD LINE NYLON RIFLE BORE BRUSHES, please refer to the manufacturer's contact information provided on the packaging or visit the manufacturer's website for further assistance.

Thank you for your attention to these safety guidelines. Enjoy safe and effective cleaning of your firearms!
