

1911 G10 LAMINATE GRIPS - ED BROWN LAMINATE GRIPS

[Handgun Parts](#) > [Grip Parts](#) > [Grips](#)

The G10 grips are made to look like natural wood grips in color and figure. They are checkered in a 18 lpi double-diamond-pattern to provide excellent grip and handling. Flush-cut bottom for use with magwell if desired; and are not cut for ambidextrous safeties. The Standard are approximate .250" thick.

Safety Instruction Guide for 1911 G10 Laminate Grips

Introduction

Thank you for choosing the 1911 G10 Laminate Grips by ED Brown. These grips are designed to enhance your firearm's handling and aesthetic appeal. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle firearms with care and follow standard firearm safety rules.
- Ensure that the grips are compatible with your specific model (1911 Government or Commander).
- Inspect the grips before installation for any damage or defects.
- Keep the grips and your firearm out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- The grips are not cut for ambidextrous safeties; ensure you are aware of this before installation.
- The grips are approximately 0.250 inches thick and require slim bushings and screws (available separately) for proper installation.
- Do not modify the grips in any way, as this may compromise safety and performance.
- Always use proper protective gear when handling firearms, including eye and ear protection.
- If you experience any issues with grip fit or handling, cease use immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation

- Ensure your firearm is unloaded and pointed in a safe direction.
- Gather necessary tools: a screwdriver compatible with the screws for the grips and slim bushings.

2. Removing Old Grips

- Carefully remove the screws holding the existing grips in place.
- Gently lift off the old grips, taking care not to damage any components.

3. Installing New Grips

- Align the new G10 laminate grips with the frame of the firearm.
- Insert the slim bushings into the grip holes if not already in place.
- Secure the grips by inserting screws and tightening them gently to avoid stripping the screws.

4. Final Check

- Ensure the grips are securely attached and do not move or shift.
- Perform a function check of your firearm to ensure everything operates correctly.

Disposal Instructions

- Dispose of any packaging materials responsibly, following local recycling guidelines.
- If the grips become damaged beyond use, consult local waste disposal regulations for proper disposal methods.

Contact Information for Further Support

For safety inquiries or further assistance regarding the 1911 G10 Laminate Grips, please refer to the contact information provided by your retailer or manufacturer. Always ensure that you are seeking assistance from authorized sources to maintain safety and compliance with regulations.

Thank you for your attention to these safety guidelines. Enjoy your enhanced shooting experience with the 1911 G10 Laminate Grips!
