## Extra Metal All Around Helps the Gunsmith Achieve a Perfect Fit

The Gunsmith Grip Safety is the ultimate development of the popular Ed Brown 1911 beavertail safety for the pistolsmith who wants a perfect, precise, slop-free fit of the safety to the frame. The Gunsmith Grip Safety has extra metal all the way around - a .245" radius instead of .250", a wider neck of .314" instead of .308", and .002" extra stock per side - allowing the skilled gunsmith to remove just as much as needed to achieve an ultra-precise fit. Machined from steel barstock - not a casting Separate models for Series 70 and Series 80 1911 pistols (order carefully!) Choose Blued carbon steel or natural silver/gray Stainless steel Extensive gunsmith fitting required The Ed Brown Gunsmith Grip Safety is designed for installation by skilled professional gunsmiths only who seek to build a pistol to the highest standards the 1911 platform will allow. Marked with a dot on the inside of the neck for identification purposes.

# Safety Instruction Guide for the Ed Brown 1911 Machined Gunsmith Beavertail Grip Safety

## Introduction

Thank you for choosing the Ed Brown 1911 Machined Gunsmith Beavertail Grip Safety. This product is designed for skilled professional gunsmiths seeking to achieve a precise and slopfree fit for their 1911 pistols. This guide provides essential safety instructions, installation guidelines, and general safety practices to ensure safe use of this product.

## General Safety Guidelines

- Ensure that the product is installed by a qualified gunsmith to avoid any safety risks.
- Always handle firearms with care and follow standard safety protocols.
- Be aware of your surroundings and ensure a safe environment when working with firearms.
- Store the grip safety in a secure location away from children and unauthorized users.
- Regularly check for any signs of wear or damage to the product.
- Keep this safety instruction guide accessible for reference.

## Specific Safety Precautions for Use

- **Installation by Professionals:** This grip safety is intended for installation by skilled gunsmiths only. Improper installation can lead to malfunctions.
- **Avoid Modification:** Do not attempt to modify the grip safety beyond the recommended fitting procedures.
- **Check Compatibility:** Ensure that you have the correct model for your Series 70 or Series 80 1911 pistol.
- **Use Proper Tools:** Utilize the appropriate tools and techniques during installation to prevent injury or damage.
- **Wear Protective Gear:** Use safety glasses and gloves when handling tools and firearms to protect against injury.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and the work area is clean and organized.
- Gather all necessary tools and materials before beginning the installation process.

### 2. Fitting the Grip Safety:

- Carefully remove excess material from the grip safety as needed to achieve a precise fit.
- Use a file or grinder to adjust the dimensions according to your specific frame requirements.
- Check the fit frequently to avoid removing too much material.

### 3. Installation:

- Align the grip safety with the frame of the pistol.
- Securely attach the grip safety according to the manufacturer's specifications.
- Ensure that the grip safety operates correctly and that there are no obstructions.

### 4. Function Check:

- After installation, perform a function check to ensure the grip safety is operating as intended.
- Test the grip safety in a safe environment before using the firearm.

## **Disposal Instructions**

- Dispose of any unused or excess materials in accordance with local regulations.
- If the grip safety is damaged beyond repair, contact a qualified gunsmith for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or support regarding the Ed Brown 1911 Machined Gunsmith Beavertail Grip Safety, please consult a qualified gunsmith or refer to the manufacturer's website for additional resources.

By following these guidelines, you can ensure the safe and effective use of the Ed Brown 1911 Machined Gunsmith Beavertail Grip Safety. Always prioritize safety and consult professionals when necessary.
