

1911 GOV'T MODEL MAGAZINES - ED BROWN GOV'T MAGAZINE 38 SUPER 9RD STAINLESS

[Magazines](#) > [Handgun Magazines](#) > [Magazines](#)

A Reliable, Robust Mag for Your "Other Caliber" 1911

For many years, the 1911 Government Model has been available in chamberings for cartridges other than its original .45 ACP, including .38 Super, 9mm Luger, and the potent 10mm Auto. The folks at the Ed Brown shop figure that just because your 1911 is chambered in one of these alternate cartridges shouldn't mean you have to sacrifice magazine reliability. Like Ed Brown's .45 magazines, their alternate caliber 1911 mags have a virtually seamless body of heat-treated stainless steel, with a self-levelling STEEL - not plastic! - follower supported by a heavy duty spring with plenty of oomph to keep the round stack moving. These 1911 Government Model magazines have a welded-on steel baseplate to minimize bulk for situations where you want to keep thing compact. Each mag comes with a pair of screw-on rubber base pads - a thin pad to protect that mag when ejecting it on hard ground, and a thick pad to provide extra length to aid insertion into and removal from a pistol with an extended magwell. These mags can go from competition to concealed carry simply by swapping the base pads. Models for pistols chambered in .38 Super, 9mm Luger, and 10mm Auto 9-Rd capacity Sturdy 410 stainless steel body / welded-on base plate Available with natural Silver finish or Black Nitride Witness holes for easy monitoring of load status The Ed Brown shop's unique hydro-finish process gives the mag body and follower an extra-slick surface that repels dirt, dust, and burned powder to eliminate unnecessary friction against the follower to ensure consistent feeding and easy seating in the magwell. You can get these 1911 Government Model magazines with a natural Silver finish or a non-reflective Black Nitride finish for extra protection from and corrosion. If you're looking for a premium-quality magazine engineered and manufactured to the highest standards to deliver outstanding reliability and smoothness from your "other caliber" 1911 Government model... you've found it!

Safety Instruction Guide for Ed Brown Government Model Magazines

Introduction

Thank you for choosing the Ed Brown Government Model Magazines for your 1911 firearm. This guide provides essential safety instructions to ensure the safe use of your magazine. Please read this document carefully to understand the precautions and procedures necessary for safe handling and operation.

General Safety Guidelines

- Ensure that your magazine is compatible with your firearm model and caliber.
- Always handle your magazine and firearm with care, treating them as if they are loaded.
- Store magazines in a secure location, away from children and unauthorized users.
- Regularly inspect your magazines for any signs of wear or damage before use.
- Do not attempt to modify or alter the magazine in any way that could affect its performance or safety.
- Follow all local laws and regulations regarding firearm and magazine usage.

Specific Safety Precautions for Use

- **Avoid Overloading:** Do not exceed the magazine capacity of 9 rounds. Overloading can cause malfunctions.
- **Check for Obstructions:** Before inserting the magazine into your firearm, ensure that it is free from obstructions or debris.
- **Use Proper Ammunition:** Only use approved cartridges for your magazine, specifically .38 Super, 9mm Luger, or 10mm Auto.
- **Monitor Load Status:** Utilize the witness holes on the magazine to check the load status and ensure proper loading.
- **Avoid Drops:** Do not drop the magazine from heights, as this could cause damage or malfunction.
- **Keep Away from Heat:** Avoid exposing the magazine to extreme heat or direct sunlight for prolonged periods.

Instructions for Installation and Usage

1. Loading the Magazine:

- Hold the magazine with the follower facing up.
- Insert the first round at the rear of the magazine, pushing it down until it clicks into place.
- Continue loading rounds one at a time until the magazine is full or you reach the desired capacity.

2. Inserting the Magazine into the Firearm:

- Ensure the firearm is pointed in a safe direction.
- With the magazine in hand, align it with the magazine well of the firearm.
- Push the magazine firmly into the well until it locks into place.

3. Removing the Magazine:

- Ensure the firearm is pointed in a safe direction.
- Press the magazine release button on the firearm.
- Pull the magazine out of the magazine well.

4. Maintenance:

- Regularly clean the magazine to prevent dirt and debris buildup.
- Use a soft cloth and appropriate cleaning solution to wipe down the exterior.
- Inspect the follower and spring for wear and replace if necessary.

Disposal Instructions

- Dispose of damaged or worn magazines in accordance with local regulations.
- Ensure that any disposed magazines are rendered unusable to prevent unauthorized access.
- If possible, recycle the metal components according to local recycling guidelines.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of your Ed Brown Government Model Magazines, please refer to the manufacturer's contact information provided on the packaging or the official website.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of your Ed Brown Government Model Magazines. Always prioritize safety and compliance with local laws when handling firearms and accessories. Thank you for your attention to these important guidelines.
