1911 Beavertail Installation Jig Safety Instructions

Introduction

Thank you for choosing the 1911 Beavertail Installation Jig by Ed Brown. This guide provides essential safety instructions and installation procedures to ensure safe and effective use of the product. Please read this manual carefully before use.

General Safety Guidelines

- Ensure that the jig is used in a wellventilated area.
- Always wear appropriate personal protective equipment (PPE), including safety goggles and gloves, when handling tools and materials.
- Keep the work area clean and free of distractions.
- Do not use the jig for any purpose other than its intended use.
- Store the jig in a safe place, out of reach of children and pets.
- Regularly inspect the jig for any signs of wear or damage. Do not use if damaged.

Specific Safety Precautions for Use

- Be cautious when milling or grinding, as sharp tools can cause injury.
- Ensure that the jig is securely positioned before starting any milling or grinding operations.
- Avoid loose clothing and jewelry that could get caught in machinery.
- Do not attempt to modify the jig or its components.
- If you are inexperienced with milling or grinding, seek assistance from someone with experience.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the 1911 Beavertail Installation Jig, a thumb safety pivot pin, milling or grinding tools, and a hand file.
- Ensure that the work surface is stable and secure.

2. Using the Jig:

- Insert the jig into the thumb safety pivot pin hole of the frame.
- Align the jig properly to ensure accurate placement.
- Use a scribe to outline the area around the jig. This outline indicates where material needs to be removed from the frame ears.

3. Milling/Grinding:

- Carefully grind or mill the material close to the scribed line. Take your time and do not rush this process.
- Stop periodically to check your progress against the jig.
- Once you are close to the scribed line, switch to using a hand file for final adjustments.

4. Final Adjustments:

- File down to the hardened button on the jig for a precise fit.
- Clean the area thoroughly after completing the installation.

5. PostInstallation:

- Inspect the installation to ensure that it meets safety and functionality standards.
- Test the beavertail safety to confirm proper operation.

Disposal Instructions

- Dispose of any waste materials generated during the installation process according to local regulations.
- If the jig is no longer needed or is damaged beyond repair, dispose of it in a manner that does not pose a risk to the environment or public safety.

Contact Information for Further Support

For any questions or concerns regarding the 1911 Beavertail Installation Jig, please refer to the manufacturer's website or contact their customer support.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and effective installation of the 1911 Beavertail Safety. Thank you for your attention to safety, and enjoy using your new jig!
