1911 Mainspring Housing Installation Jig Safety Instruction Guide

Introduction

Thank you for purchasing the 1911 Mainspring Housing Installation Jig by Ed Brown. This product is designed to assist you in quickly and easily locating a new frame hole for your bobtail housing. To ensure your safety and the proper use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that you are familiar with the operation of the 1911 firearm before using this jig.
- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using tools.
- Keep the installation area clean and free of any hazards that may cause accidents.
- Do not use the jig for any purpose other than its intended use.
- Ensure that children and pets are kept away from the workspace during installation.
- If you notice any damage to the jig or any components, do not use it until the issue is resolved.

Specific Safety Precautions for Use

- Be cautious when handling sharp tools or metal parts to avoid cuts or injuries.
- Ensure that the jig is securely positioned before applying any force during installation.
- Do not exceed the recommended force when using the jig to avoid damaging the frame or the jig itself.
- Always doublecheck the alignment before drilling to prevent any misalignment that could lead to further complications.
- If you are unsure about any step in the installation process, consult a professional gunsmith for assistance.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and materials, including the jig, drill, drill bits, and safety equipment.
- Ensure that the firearm is unloaded and that no ammunition is present in the area.

2. Setting Up the Jig

- Position the jig on the frame of the 1911 firearm where the new hole will be located.
- Use clamps or weights to secure the jig in place to prevent movement during drilling.

3. Drilling the Hole

- Select the appropriate drill bit size as recommended for the bobtail housing.
- Drill the hole carefully, ensuring that you maintain the correct angle and depth.
- Periodically check the alignment of the jig to ensure accuracy.

4. Finishing Up

- Once the hole is drilled, remove the jig and clean the area of any metal shavings or debris.
- Inspect the hole for any irregularities and ensure it is ready for the bobtail housing installation.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the jig becomes damaged beyond repair, check local regulations for proper disposal of metal tools and components.
- Do not dispose of the jig in regular household waste if it is still functional; consider donating it or passing it on to another user.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the 1911 Mainspring Housing Installation Jig, please reach out to the appropriate EUbased contact point for product safety inquiries in your region.

By following these safety instructions, you can ensure a safe and effective installation process for your 1911 Mainspring Housing. Thank you for your attention to safety, and enjoy your product!
