

# MACHINED AMBIDEXTROUS CARRY THUMB SAFETY FOR 1911 - ED BROWN MACHINED AMBIDEXTROUS CARRY SAFETY FOR 1911 STEEL

[Handgun Parts](#) > [Safety Parts](#) > [Safeties](#)

MACHINED AMBIDEXTROUS CARRY THUMB SAFETY FOR 1911 The Ed Brown Ambidextrous Machined Carry Thumb Safety provides a slim pad for use in concealed carry applications. This is the same as the Wide Ambidextrous Safety but with the levers trimmed to a 1/8" slender profile for better carry and concealment. This version is fully machined from stock for unbeatable quality and no chance of warping or porosity. This design uses a special hammer pin (included) to hold the safety securely, eliminating the need to modify the grips. Designed for all 1911 type frames and made from high quality steel. Available in blued or stainless steel. Requires minor gunsmith fitting for safe operation and includes complete instructions.

# Safety Instruction Guide for the 1911 Machined Ambidextrous Carry Thumb Safety

## Introduction

Thank you for choosing the Ed Brown Machined Ambidextrous Carry Thumb Safety for your 1911 firearm. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of your product. Please read this document carefully before installation and use.

## General Safety Guidelines

- Ensure that the product is installed correctly to prevent any accidental discharges.
- Always treat your firearm as if it is loaded, even when you believe it to be unloaded.
- Store your firearm and accessories in a secure location, out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding the use and ownership of firearms.
- Regularly inspect your firearm and safety components for wear or damage.
- Report any unsafe products or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- This safety is designed for use with 1911 type frames only. Do not attempt to use it with other models.
- Ensure that the firearm is unloaded before installing or adjusting the safety.
- Use caution when handling the hammer pin, as improper handling can lead to personal injury.
- Minor gunsmith fitting is required for safe operation; do not attempt to modify the product yourself.
- If you are unfamiliar with firearm safety or installation, seek assistance from a qualified gunsmith.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure the firearm is completely unloaded.
- Gather the necessary tools: screwdriver, hammer, and appropriate punches.

### 2. Installation Steps

- Remove the existing thumb safety from the firearm by unscrewing it and gently tapping it out with a punch.
- Carefully install the Ed Brown Ambidextrous Machined Carry Thumb Safety by aligning it with the safety slot on the frame.
- Insert the special hammer pin provided with the safety to hold it securely in place.
- Ensure that the safety operates smoothly without obstruction.

### 3. Testing Functionality

- With the firearm still unloaded, test the functionality of the safety by engaging and disengaging it several times.
- Ensure that it properly blocks the hammer when engaged and allows it to move freely when disengaged.

### 4. Final Checks

- Reassemble any other components of the firearm that were removed during installation.

- Conduct a final inspection to ensure everything is functioning correctly.

## **Disposal Instructions**

- Dispose of any packaging materials in accordance with local regulations.
- If the product is no longer usable, dispose of it in a manner that prevents accidental use or harm.
- Consider recycling components where possible, following local recycling guidelines.

## **Contact Information for Further Support**

For any questions or concerns regarding the Ed Brown Machined Ambidextrous Carry Thumb Safety, please refer to the contact information provided by your retailer or the manufacturer's website.

Thank you for prioritizing safety and compliance. Enjoy your product responsibly.
