

# FELT POLISHING WHEELS - 8" SOFT FELT POLISHING WHEEL 3/4" ARBOR

[Gunsmith Tools & Supplies](#) > [Metal Prep & Coloring](#) > [Polishing Tools & Accessories](#) > [Polishing Wheels](#)

## Professional Gunsmith-Proven & Preferred

Finest quality 1" wide felt wheels, carefully selected and factory trued. (Final touch-up truing may be required.) Only the closely controlled density of felt wheels will give the superb finish that marks the real professional. Complete instructions on Polish-O-Ray™ tube describes felt wheel technique. It is best to use a different wheel for each polish grit. 1/2 hp or under, use 6" wheels at 3600 RPM, 1/2 hp or over, 8" at 1800, 3/4 hp or over can use 10" at 1800. 10" for experienced polishers only. Use the soft felt for most work, medium or hard wheel for 555™ Polish.

# FELT POLISHING WHEELS 8" SOFT FELT POLISHING WHEEL 3/4" ARBOR Safety Instruction Guide

## Introduction

Thank you for choosing the FELT POLISHING WHEELS 8" SOFT FELT POLISHING WHEEL. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and follow all instructions carefully to avoid any risks or hazards.

## General Safety Guidelines

- Ensure that the polishing wheel is compatible with your polishing machine.
- Always wear appropriate personal protective equipment (PPE), including safety goggles, gloves, and a dust mask, while using the polishing wheel.
- Keep the working area clean and wellventilated to minimize risks.
- Store the polishing wheels in a dry place away from direct sunlight and moisture.
- Regularly inspect the polishing wheels for signs of wear or damage before use.
- Do not exceed the recommended RPM for the polishing wheel to prevent accidents.

## Specific Safety Precautions for Use

- Use the soft felt wheel for most polishing tasks. For specific polishes like 555™ Polish, consider using a medium or hard wheel.
- When using a polishing machine with a motor of 1/2 hp or under, use 6" wheels at 3600 RPM.
- For motors of 1/2 hp or over, use 8" wheels at 1800 RPM.
- For motors of 3/4 hp or over, 10" wheels at 1800 RPM are recommended, but only for experienced polishers.
- Always use a different wheel for each polish grit to achieve the best results.
- Do not apply excessive pressure while polishing; let the wheel do the work.
- If you notice any unusual vibrations or sounds during operation, stop using the wheel immediately and inspect it for damage.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure that the polishing machine is turned off and unplugged.
- Select the appropriate adapter based on the arbor size of your polishing machine (1/2", 5/8", 3/4", or 7/8").
- Attach the adapter to the polishing wheel's arbor if necessary.
- Securely mount the polishing wheel onto the machine's spindle, ensuring that it is properly aligned and tightened.

### 2. Usage:

- Plug in the polishing machine and turn it on, allowing it to reach the required RPM.
- Gently bring the polishing wheel into contact with the surface to be polished.
- Move the wheel in a consistent motion across the surface, avoiding staying in one spot for too long.
- After use, turn off the machine and allow the wheel to come to a complete stop before removing it.

## **Disposal Instructions**

- Dispose of used polishing wheels in accordance with local regulations.
- Do not dispose of polishing wheels in regular household waste if they contain hazardous materials.
- Consider recycling options where available.

## **Contact Information for Further Support**

For any questions or concerns regarding the FELT POLISHING WHEELS 8" SOFT FELT POLISHING WHEEL, please refer to the manufacturer's guidelines or contact your local distributor for assistance.

By following these safety instructions, you can ensure a safe and effective polishing experience. Thank you for your attention to safety!
