

FELT POLISHING WHEELS - BACON FELT COMPANY 8" MEDIUM FELT POLISHING WHEEL 1" ARBOR

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Polishing Tools & Accessories](#) > [Polishing Wheels](#)

Professional Gunsmith-Proven & Preferred

Finest quality 1" wide felt wheels, carefully selected and factory trued. (Final touch-up truing may be required.) Only the closely controlled density of felt wheels will give the superb finish that marks the real professional. Complete instructions on Polish-O-Ray™ tube describes felt wheel technique. It is best to use a different wheel for each polish grit. 1/2 hp or under, use 6" wheels at 3600 RPM, 1/2 hp or over, 8" at 1800, 3/4 hp or over can use 10" at 1800. 10" for experienced polishers only. Use the soft felt for most work, medium or hard wheel for 555™ Polish.

FELT POLISHING WHEELS SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the 8" Medium Felt Polishing Wheel from Bacon Felt Company. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this manual thoroughly before use to understand how to operate the polishing wheel safely and efficiently.

General Safety Guidelines

- Always ensure that the polishing wheel is securely attached to the machine before use.
- Use personal protective equipment (PPE) including safety goggles, gloves, and a dust mask to protect against dust and debris.
- Keep the work area clean and welllit to avoid accidents.
- Ensure that all safety guards on the polishing machine are in place and functioning properly.
- Do not wear loose clothing or jewelry that could become entangled in the polishing wheel.
- Ensure that children and pets are kept at a safe distance while operating the polishing wheel.
- Regularly inspect the polishing wheel for signs of wear or damage. Do not use if damaged.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Only use the polishing wheel with a compatible polishing machine.
- For 1/2 hp or under machines, use 6" wheels at 3600 RPM.
- For machines 1/2 hp or over, use 8" wheels at 1800 RPM.
- Experienced polishers may use 10" wheels at 1800 RPM, but caution is advised.
- Use a different wheel for each polish grit to avoid crosscontamination of compounds.
- Follow the manufacturer's instructions for the specific polishing compound being used.
- Avoid excessive pressure on the polishing wheel; let the wheel do the work.
- Always disconnect the machine from the power supply before changing or adjusting the polishing wheel.

Instructions for Installation and Usage

1. Installation:

- Ensure the machine is unplugged before installation.
- Remove any existing wheel from the machine, if applicable.
- Align the 1" arbor of the polishing wheel with the machine's spindle.
- Securely fasten the wheel using the appropriate adapter if necessary (1/2", 5/8", 3/4", or 7/8").
- Ensure the wheel is firmly attached and does not wobble.

2. Usage:

- Plug the machine into a power source.
- Turn on the machine and allow the wheel to reach full speed before introducing the workpiece.
- Gradually apply the workpiece to the wheel, using even pressure.
- For best results, maintain a consistent speed and avoid overloading the wheel.
- After use, turn off the machine and allow the wheel to come to a complete stop before removing the workpiece.

Disposal Instructions

- Dispose of the polishing wheel in accordance with local regulations.
- Do not dispose of the polishing wheel in regular household waste if it is damaged or contains hazardous

materials.

- Consider recycling options if available in your area.
