

FELT POLISHING WHEELS - BACON FELT COMPANY 6" HARD FELT POLISHING WHEEL 5/8" ARBOR

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Polishing Tools & Accessories](#) > [Polishing Wheels](#)

Professional Gunsmith-Proven & Preferred

Finest quality 1" wide felt wheels, carefully selected and factory trued. (Final touch-up truing may be required.) Only the closely controlled density of felt wheels will give the superb finish that marks the real professional. Complete instructions on Polish-O-Ray™ tube describes felt wheel technique. It is best to use a different wheel for each polish grit. 1/2 hp or under, use 6" wheels at 3600 RPM, 1/2 hp or over, 8" at 1800, 3/4 hp or over can use 10" at 1800. 10" for experienced polishers only. Use the soft felt for most work, medium or hard wheel for 555™ Polish.

Safety Instruction Guide for FELT POLISHING WHEELS

Introduction

Thank you for choosing the FELT POLISHING WHEELS from BACON FELT COMPANY. This guide provides essential safety instructions to ensure the safe and effective use of your polishing wheels. Please read this document carefully before using the product.

General Safety Guidelines

- Always read and follow the manufacturer's instructions.
- Ensure that the polishing wheels are suitable for your polishing machine.
- Inspect the polishing wheels for any defects or damage before use.
- Use the polishing wheels only for their intended purpose.
- Keep the workspace clean and free of obstructions.
- Store polishing wheels in a dry and safe place when not in use.
- Wear appropriate personal protective equipment (PPE), including safety goggles and dust masks.
- Ensure that children and vulnerable individuals are kept away from the workspace.

Specific Safety Precautions for Use

- Use only the recommended speed settings for your polishing machine:
 - For machines with 1/2 hp or under, use 6" wheels at 3600 RPM.
 - For machines with 1/2 hp or over, use 8" wheels at 1800 RPM.
 - For machines with 3/4 hp or over, 10" wheels at 1800 RPM are suitable but intended for experienced polishers only.
- Always use a different wheel for each polish grit to avoid contamination.
- Do not exceed the maximum RPM recommended for the polishing wheels.
- Avoid applying excessive pressure while polishing; let the wheel do the work.
- Ensure that the arbor size matches the machine's spindle to prevent accidents.
- If you notice any unusual noise or vibration during operation, stop the machine immediately and inspect the wheels.

Instructions for Installation and Usage

1. Installation:

- Ensure that the polishing machine is turned off and unplugged.
- Select the appropriate polishing wheel based on your specific task and machine specifications.
- Attach the polishing wheel securely to the machine's arbor, using the supplied adapter if necessary.
- Tighten the wheel securely to prevent it from loosening during operation.

2. Usage:

- Plug the polishing machine into a power source and turn it on.
- Allow the wheel to reach the appropriate speed before beginning to polish.
- Hold the workpiece firmly and move it gently against the rotating wheel.
- Maintain a consistent speed and pressure for an even finish.
- After use, turn off the machine and unplug it before removing the polishing wheel.

Disposal Instructions

- Dispose of used polishing wheels in accordance with local regulations.
- Do not dispose of polishing wheels in regular household waste if they contain hazardous materials.
- Consider recycling options where available.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the contact information provided on the product packaging or the manufacturer's website.

By following these guidelines, you can ensure a safe and effective polishing experience with your FELT POLISHING WHEELS. Thank you for prioritizing safety!
