

REMINGTON 700 LONG ACTION SCOPE RAILS - BADGER ORDNANCE

REMINGTON 700 LONG ACTION 30 MOA RIGHT HAND RAIL

[Optics & Mounting](#) > [Rings, Mounts & Bases](#) > [Rifle Bases](#)

Built-In Angle Supplements Your Scope's Elevation Adjustment

Badger Ordnance's Remington Long Action Scope Rail is a heavy-duty steel base with built-in forward angle bias so you can take those ultra-long-range shots without exceeding the elevation adjustment of your scope. The Badger Ordnance Remington Long Action Scope Rail has a MIL-STD 1913 Picatinny slot pattern for maximum compatibility with the many Picatinny tactical scope rings currently available. Bore height dimension is .31" The Badger Ordnance Remington Long Action Scope Rail has an integral recoil lug that ensures this base won't move, even when shooting the hardest-kicking cartridges.

Heavy steel base with 20 M.O.A. forward angle increases maximum scope elevation for long range shooting. Machined after hardening to maintain dimensions. Integral recoil lug withstands the hardest kicking calibers. Uses MIL-STD 1913 Picatinny slot pattern for maximum sight mounting possibilities. Remington Zero Cant does not have 20 M.O.A. forward angle. For use where extra elevation is not required. Fits 700 short action only.

Attributes

- Name: [BADGER ORDNANCE REMINGTON 700 LONG ACTION 30 MOA RIGHT HAND RAIL](#)
- Manufacturer: [BADGER ORDNANCE](#)
- Product no.: 093000077

Safety Instruction Guide for the REMINGTON 700 LONG ACTION SCOPE RAILS

Introduction

Thank you for choosing the Badger Ordnance Remington 700 Long Action Scope Rail. This guide provides essential safety instructions and guidelines for the proper installation and use of the product. Please read this document carefully to ensure safe and effective use.

General Safety Guidelines

- Always handle the scope rail and firearm with care.
- Ensure that the firearm is unloaded before installing or adjusting the scope rail.
- Use only compatible scope rings with the MILSTD 1913 Picatinny slot pattern.
- Regularly inspect the scope rail for any signs of wear or damage.
- Store the scope rail in a dry, cool place when not in use.
- Follow all local laws and regulations regarding firearm accessories.

Specific Safety Precautions for Use

- Ensure that the recoil lug is properly seated to prevent movement during shooting.
- Avoid exceeding the elevation adjustment of your scope when taking longrange shots.
- Do not use the scope rail with firearms that it is not designed for.
- Keep the area clear of bystanders when shooting.
- If you experience any issues with the scope rail, cease use immediately and consult a professional.

Instructions for Installation and Usage

1. Installation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Remove any existing scope rings or bases from the firearm.
- Position the Badger Ordnance Remington Long Action Scope Rail onto the receiver.
- Align the integral recoil lug with the corresponding slot on the receiver.
- Secure the rail using the appropriate screws, ensuring they are tightened to the manufacturer's specifications.

2. Usage:

- Mount your scope onto the rail using compatible Picatinny scope rings.
- Adjust the scope to your desired settings, ensuring it is securely fastened.
- Test the setup at a safe shooting range, ensuring that the scope rail and scope perform as expected.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the scope rail in regular household waste.
- If the product is damaged beyond repair, contact a local waste management facility for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the manufacturer's contact details provided with your product packaging.

Thank you for your attention to these safety instructions. Your safety is our priority.
